Headmaster's Notes

THE School suffered a severe loss early in the term by the death of the Provost of St. Edmundsbury, the Very Rev. J. L. White. One of the most valued of the School Governors, the Provost had for eighteen years taken the keenest interest in the School's well-being. His practical common sense was always at hand, his sense of proportion most marked, whilst a sense of humour was ever ready to emerge. To him we owe the idea of, and the style of, our Founder's Day Service, one of many links he forged between the School and the Cathedral. The Provost's Prize, awarded annually, will perpetuate the memory of a very dear friend.

It is with regret that we say goodbye to Mr. D. A. Young after eighteen years service in the School and in the Boarding House. He was ever at the disposal of all who sought his help. We wish him a speedy return to good health and every happiness on his less onerous post in Derbyshire.

We say farewell also to Mr. D. Tapster who in three years has done so much for the Art of the School. His exhibitions have been a joy to see. Not the least of his achievements has been the successful revival of the Dramatic Society which ceased to function on the outbreak of the last war, and the effective presentation of plays in the Gym instead of in the Athenaeum. We wish him all success in Leicester.

Plans are now complete for the construction of the open air swimming pool and work is due to commence at any moment. The pool, seventy-five feet by thirty feet, will be admirably sited immediately below the new teaching block, and next summer we shall be no longer handicapped by a meagre allowance of two swimming periods a week for eight weeks, nor shall we be burdened with the laborious getting to and from the town's swimming bath.

The School Speech Day was held on Saturday, June 21st, when we were honoured by the attendance of His Grace the Duke of Grafton. On this occasion the relay of the speeches worked perfectly. Many had contributed to give us some most interesting exhibitions and the weather was our only enemy, not a ball being bowled in the Old Boys' Cricket Match.

On Thursday, July 3rd, the Founder's Day Service was held in the Cathedral and once more we had some delightful singing by the School Choir. We are indebted to the Revd. Richard Tydeman of Newmarket for his address, to the Rev. J. R. M. Wright for taking the service, and to the Rev. G. J. Tarris, who, in spite of the heavy work imposed on him by the death of the Provost, saw to it that all arrangements were made for the Service.

The Autumn Term of 1958, with an intake of some eighty new boys, will see the School's numbers higher than ever — in the region of three hundred and sixty. Because of this we shall have an extra master on the Staff and we welcome Mr. D. L. Alderton. Also joining the Staff will be Mr. L. P. Escott to teach Art, and, in January, Mr. J. H. Duddell, an old County Grammar School boy, to teach Mathematics.

Athletic Sports

SCHOOL SPORTS

The bad weather which has been a characteristic of this summer tried to spoil the day, but, although conditions of wind and rain were not conducive to good performances, some very satisfactory results were obtained. A list of individual winners appears below.

The Inter-House Competition resulted in a win for Windsor House, who backed up their Cross-Country victory with a good all-round team effort in the Athletics.

The highlight of the morning's programme was the Pole Vault which was introduced for the first time. It was eventually won by Grout at 8' 7½" after some exciting vaulting.

Three School records were broken. Herbert achieved 92' 3" in the Under 15 Javelin, Edwards and Lane tied at 28' 7½" in the Under 13 Hop-Step and Jump, while Halls lowered the School Hurdles to 16.1 secs.

The Individual Champions were:—

* Record

WEST SUFFOLK DISTRICT ATHLETIC SPORTS

These sports were held on Thursday, 22nd May, on the new cinder track in Bury St. Edmunds. The school entered a complete team for all events and although the successes were not as numerous as last year, many fine performances were recorded.

The standard of the Under 15 team was much lower than that of previous years. This was due to the lack of ability rather than to any deficiency of enthusiasm. Only one first place was recorded in this group, by A. T. Miles in the Hop-Step and Jump, an event in which we have been successful each time over the last three years.

In the 15—17 group we did much better and tied with Culford School for the Championship after a dead heat in the final relay race. B. G. Whistlecraft did well in winning both the 100 and 220 yds. sprints, while P. W. Garrard threw the Discus 130 feet to win this event. Other winners in the 15—17 group were D. O. Hooper in the Triple Jump, and the Relay team of Hayward, Whistlecraft, Halls, and Bengé.

SUFFOLK COUNTY SPORTS, LEISTON, 21st June

Twenty-four selections were made from the School to represent West Suffolk in the County Sports but, unfortunately, only fifteen were able to compete. The conditions were poor at Leiston, there being continuous rain throughout the afternoon, and the track was very wet and slippery. The School contingent, however, did quite well and seven of the competitors were placed in their respective events.

JUNIOR BOYS :

| | | |
|------|-------------|-----|
| Shot | Brennan, J. | 3rd |
|------|-------------|-----|

INTERMEDIATE BOYS

| | | |
|---------------|-------------|-----|
| 220 yds. | Hayward, J. | 2nd |
| Discus | Garrard, J. | 2nd |
| Hop-Step-Jump | Hooper, D. | 1st |

SENIOR BOYS :

| | | |
|---------------|-----------|-----|
| 220 yds. | Jordan | 3rd |
| Hop-Step-Jump | Twitchett | 3rd |
| 880 yds. | Whiting | 3rd |

In the Intermediate Boys Relay Whistlecraft was a member of the winning West Suffolk team, and Jordan was a member of the West Suffolk team that won the Senior Boys Relay.

The School may be justly proud of the fact that it helped West Suffolk to win the County Sports for the sixth year in succession.

INTER-SCHOOL ATHLETIC MEETING

On May 17th, at Woodbridge, the School competed for the first time in a Triangular Athletic Meeting with Wolverstone Hall and Woodbridge School. Unfortunately the afternoon was rather dull and windy, with a little rain, conditions not conducive to good athletics.

In the "Over 16" age group the School did rather poorly. The only positions of note gained were :—

| | | |
|----------|---------|-----|
| 100 yds. | Jordan | 3rd |
| 440 yds. | Jordan | 3rd |
| 880 yds. | Whiting | 3rd |
| Shot | Halls | 3rd |

In the "Under 16" age group, the School did much better and were placed second.

| | | |
|---------------|--------------|-----|
| 100 yds. | Hayward | 1st |
| | Whistlecraft | 2nd |
| 440 yds. | Benge | 3rd |
| 880 yds. | Carey | 2nd |
| 1 Mile | Flack | 2nd |
| Hurdles | Fordham | 2nd |
| Discus | Gardner | 3rd |
| Javelin | Gillingwater | 3rd |
| High Jump | Peck | 2nd |
| | Garrard | 3rd |
| Long Jump | Whistlecraft | 1st |
| Hop-Step-Jump | Hooper | 2nd |
| Relay | K.E.G.S. | 1st |

In the "Under 14" age group, the School were again placed second to Woodbridge School.

| | | |
|---------------|----------|-----|
| 220 yds. | Herbert | 3rd |
| 880 yds. | Bidwell | 3rd |
| Discus | Herbert | 2nd |
| Javelin | Herbert | 1st |
| Hop-Step-Jump | Herbert | 1st |
| Long Jump | Knight | 3rd |
| Relay | K.E.G.S. | 2nd |

CRICKET REVIEW

Despite the fact that three matches were cancelled because of rain the school enjoyed a not altogether unsuccessful season. The record, however, contains a disappointing number of draws owing mainly to the lack of free-scoring batsmen.

One of the most pleasing results of the season has been the promise shown by certain of the younger members of the team, particularly Flack and Gillingwater, whose all-round performances have been of immense value to the side. The batting on the whole has not been exceptionally strong but however, when earlier batsmen failed the later batsmen almost invariably succeeded in helping the side to make a respectable total.

The 2nd XI has had rather an uneventful season, playing only four matches. The U 14 XI has met with reasonable success under the captaincy of Ainger.

Lastly our thanks are extended to Mr. Wainwright, Mr. Lock, Mr. Rayner and Mr. Sutton for their work with the respective Elevens, and to Mr. Dart for an excellent fixture list. B.J.

C.C.F. Notes

The strength of the Contingent at the end of this term was 76, of whom 32 are attending Camp at Pirbright. This is satisfactory, but I hope that the numbers will continue to rise, since, at camp, training, as well as being more intensive, is much more interesting, and Cadets have the opportunity of seeing other Contingents.

The main event of the term was the Inspection by Colonel F. W. Houghton-Beckford. His report was very satisfactory. Particular mention was made of the senior N.C.O's., and of the demonstration of Fire and Movement, with amplified commentary, given by the Post Cert "A" Squad. We are grateful to Mr. Lock and Mr. Woodhouse for their help.

Two Cadets have attended Courses during the year, and derived both pleasure and benefit from them.

A large number of boys will be eligible to join the Corps next year. As we are continually trying to raise our standards, it will not be possible to accept any who are half hearted, or who are considered unlikely to make good.

EASTERN COMMAND

CADET LEADERSHIP COURSE 1958

On April 10th Ninety-six Cadets from the area covered by Eastern Command assembled at West Tofts Camp, near Thetford, for an eight-day course. This was the second of two held this year owing to the increased popularity of the courses since they were first held in 1956, their aim being to instil and develop the qualities of leadership, initiative and self-reliance.

We were welcomed by the Commandant, Brigadier F. J. C. Piggott, D.S.O., O.B.E., who hoped we would have a profitable and enjoyable time. He told us that towards the end of the eight days our physical strength would be at a low ebb and it was then that the true leaders would emerge to inspire the rest.

We were divided up into four platoons, each commanded by a Regular Army Officer, and every section of eight cadets was led by a recently commissioned National Service Officer. Platoon N.C.O's. were appointed from among the cadets, all ranks obtained in the C.C.F. being ignored.

Instruction was given in First Aid under Captain Roger Bannister. 'Casualties' were made up by the R.A.M.C. and many of the wounded looked very realistic, especially one showing a severed artery.

Two interesting features were, one, the new Sterling gun, a reliable and accurate weapon, a change from the Sten, and two, motor-cycling, the only lessons given being how to start and stop the machines, a tree being recommended for the latter if nothing else availed. The sense of self-reliance in this course was indeed a powerful one.

Many of us were introduced to an assault course in three 'easy' stages. Before the final run in full kit, which was a competition between the sections, it was noticeable that the number of visits to the M.O. with various complaints increased.

The majority of the time, however, was spent on outdoor exercises. In Exercise Samaritan the newly learnt First Aid was put into practice, a 'wounded' man was attended to, and then all fifteen stone of him was carried for some distance in a stretcher through 'enemy' territory. Exercise Cockleshell damped many an ardent spirit when the obstacle which had to be crossed proved to be a river. Only three members of one platoon managed to cross without getting wet. Exercise Freedom was partly a night operation. 'Captured' prisoners were released, in the early hours of the morning, by a disloyal guard and had to make their way to a 'beach' where they were to be picked up.

All these operations counted in a section competition, but two others did not. The first, 'Highland Fling', was a general free-for-all when opposing 'Scottish Clans' each set out to destroy the whiskey still of the other, a wonderful contraption made by the Officers. The second, Operation Bonaparte, was the only indoor one. Each section had to study a map of St. Helena, where a hitherto unknown descendant of the one time French Emperor was held captive by Communists, and a plan had to be made to effect his escape.

Another feature of the course was the many distinguished persons who were either on the Staff or who came to give lectures. They included General Sir Richard Gale, Major Farrar-Hackley, Roger Bannister, who, apart, from giving instruction in First Aid, gave a more light-hearted lecture on his athletic career, and the Padre, the Rev. R. Murphy, an Irish Rugger International.

The eight days spent on the camp were very full ones and there was little time for relaxation, although a T.V. room was provided for this purpose. In his final lecture Brigadier Piggott pointed out the importance of being keen on everything we tackled and at the end he presented the prizes, tankards, to the best all-round section.

The course, although a vigorous one, was well worthwhile, and it would be commendable to see more boys from the School Contingent applying for a place on future Leadership Courses.

K.E.P.

C.C.F. ELECTRICAL ENGINEERING COURSE

During the Easter holiday I was privileged to attend a War Office course in Electrical Engineering at the School of Military Engineering, Gillingham, Kent. Twenty-three other Cadets and I from all corners of Britain were quartered in a near-by barracks. The food was of good quality and unlimited. Conducted in a manner somewhat akin to school, lessons began at 8 a.m. and went on to 5 p.m. Our curriculum was wide, being designed to give a taste of all branches of electrical science, ranging from underground cable construction to illumination.

During the ten days I spent with the Royal Engineers, I was impressed by the high standard of instruction given. Anyone in the Corps who intends to make his career in electrical engineering should take advantage of these courses. It is by no means a disadvantage as a prospective employee to have become, as I have, the possessor of Certificate 'T'.

J. M. GROUT

Scout Notes

There are, at present, fourteen boys in the Troop.

Meetings have been almost entirely out of doors, and a certain amount of Second Class work has been covered.

Badges gained : Marksman, M. T. F. Rhodes; Second Class: G. W. Morrey. Three boys have been invested: N. K. Parsonson, C. A. Pask, and R. Taylor.

| | | |
|-----------------|-----------|------|
| Patrol Points : | Kangaroos | 58 |
| | Beavers | } 50 |
| | Owls | |

It is hoped in the coming term to re-organise the Troop under the leadership of Mr. Alderton and, in the hope that we may have a flourishing Troop of considerable size, suggestions are invited for the most convenient time for meetings.

Science Club

The first meetings of the term were spent in the preparation of the exhibits for Speech Day. These included a number of models and various demonstrations. Douglass designed and demonstrated a working model of the lead-chamber process for the manufacture of sulphuric acid, and West demonstrated and explained various spectra.

The juniors held a Brains Trust on 2nd July and Douglass, Pettit, Phizacklea and Williams, who were the brains, dealt very ably with the questions, which covered a wide range of interest.

On Tuesday 1st July those seniors who were not engaged in the G.C.E. visited the Athenaeum Observatory to examine the telescope and to use it to observe sunspots.

Final event of the term was a lecture on nuclear energy given at the Silver Jubilee School by Dr. Faber of Cambridge under the auspices of the British Association for the Advancement of Science and the United Kingdom Atomic Energy Authority. The members of the Senior Science Club were among the 45 boys from the upper School who attended the lecture, which was followed by a brief film.

Art Club

The junior members of the Club have had the opportunity of sketching out of doors in the vicinity of the School, as well as at Ickworth Park. On another occasion a visit was made to Moyse's Hall, and seniors have made paintings of the Cathedral, the Norman Tower, and the Abbey Gateway. The weather has not always been an encouragement to work outside the Art Room, but the most has been made of the opportunities offered.

Work has continued on the mural paintings in the gymnasium corridor, and the first section is now practically complete. The event of Open Day again provided Club members with the opportunity of learning how best to display their work. This year there was included a model by E. J. Ward and C. Lacey for the stage set for "Gaslight," which was performed at Christmas, and in addition there was a model of a timber-frame house, the work of a first-year boy.

The Tuck Shop

This term has seen the opening of the School tuck shop, and the constant queues and ready flow of pennies and half-pennies have proved the popularity of the enterprise. The organisation and service has been the work of members of the Dramatic Society, and the ultimate aim has been to finance the purchase of equipment for future productions of the Society. Grateful acknowledgment for the original inspiration must go to Mrs. J. O. Bridges, for without doubt the funds earned through the functioning of the tuck shop should make it possible in the future to embark upon more and more ambitious productions on the stage.

Our programme this term has been of a more varied nature, including a very enjoyable talk on Modern Music by C. Bailey, which he illustrated by using a skiffle team.

The Chairman, who unfortunately has been unable to attend the last two meetings, gave a most interesting talk on the organ, following it by a short recital which consisted of Bach, Sibelius and Orlando Gibbons.

We are very grateful to Mr. Sutton for giving us a very varied and exhilarating recital to close the activities of the term; the composers whose work he played included Beethoven, Brahms, Chopin and Schumann.

JUNIOR

| | | |
|------------------|-------|-------------|
| <i>Chairman</i> | | Mr. Sutton |
| <i>Secretary</i> | | F. Saunders |

The Junior Music Club had nine members this term, a small, but very enthusiastic, number.

The following meetings were included in the programme:

6th May. A new Secretary was elected in place of Snell, who left the Club last term. Programmes for future meetings were discussed.

20th May. After the minutes had been read King and Saunders gave a programme of Gramophone records.

3rd June. Here was a most interesting afternoon. A musical quiz presented by Sparrow was followed by all those present practising 3-part songs.

26th June. The whole meeting, after business had been discussed, was devoted to practice on recorders.

It is hoped that next term we may have a larger membership which will help considerably in arranging more varied and interesting programmes.

Discussion Group

Examinations and other activities have diminished attendances this term. In view of the customary excessively large numbers this diminution is not unwelcome.

It has been impossible to avoid discussing matters which nowadays seem habitually in the news — atom bombs, satellites, strikes, disarmament, taxes, inflation, the Near East and so on.

The following papers were read, and, in view of the speakers' personal knowledge, some were more convincing than usual :

| | | |
|---------------|-------|---------------|
| MacAllister I | | Paraguay |
| Gregory | | Kenya |
| Fulker | | Germany |
| Ryan | | Newspapers |
| Crowe | | Trade Unions. |

Wolfenden, Stone, Quince and Gregory performed creditably as a "Brains Trust". Three minute extempore speeches on a variety of topics gave younger boys a chance to air their views and to discover how long three minutes can be. Regrettably, this discovery was, on occasions, passed on to their audience.

There has been some improvement in standards of discussion. Unfortunately, some, in an effort to overwhelm the opposition, degenerate into mere logomachy.

Chess Club

JUNIORS

The meetings have continued weekly, though there has been some change in the list of players.

Spence (who joined us this term) has taken the top position on the Ladder, and also won the final of the end-of-term elimination tournament.

It will be interesting to see how some of the Juniors progress when they move up to the Senior Club in September.

SENIORS

Matson's interests having taken him to other activities this term, there has been some alteration in the Ladder positions. Both McAllister and Death have occupied it at times, and at the moment Death holds the lead.

In the end-of-term tournament, Ryan was the champion, although it must be admitted that he was helped to this result by several 'byes', caused by absence of many Fifth and Sixth form players.

Next term should provide new names on the ladder, and the constant challenge of fresh approaches to the game.

Nets Activity

This has again proved a most popular summer activity, some 87 boys of the lower forms choosing to participate in it. This large number of boys on the playing field during the activity period made it necessary to organise them into groups, which alternated between the Nets, Form Matches, and Single Wicket Cricket.

The weather has been kind to this activity, only one complete period being lost through rain. In this way the boys benefited from a healthy, open-air activity, during which they have acquired an increased interest in Cricket, and improved achievements in all its particular skills.

Physical Education Activities

The initial half of the term was devoted to athletics in preparation for School and Inter-School competitions. In both the Senior and Junior groups enthusiasm was good and a satisfactory standard was obtained.

I feel that the school is becoming more actively conscious of Athletics, thanks to the 'A and B Standards' system of point scoring. It encourages the more gifted boy to train for the A Standard, 2 points, while it does not discourage the poorer boy from losing interest, as even the weakest boy, with a certain amount of training, allied to the correct technique, should be able to obtain at least three 'B' standards.

The second half of the term was spent at the Swimming Pool, where a fair amount was achieved under difficult conditions. Next year, when we have our own pool, swimming should be able to take a more prominent part in the summer activities. Nevertheless, four boys were selected for the County swimming Gala at Ipswich in which D. Brenner won the Under 13 Breast Stroke, a creditable performance.

Dorkist House Notes

During the past year the House has emerged victorious in both the cricket and Drama Competitions, and has drawn with the Lancastrians for first place in the Hockey Competition. This has only been possible because of a great deal of effort on the part of many members of the house.

On Sports Day, owing to fine performances by our Athletics Captain, Garrard, the House finished second. Bishop is to be congratulated on winning the under fifteen challenge cup, and Garrard on winning the Adrian Gould Cup for field events. Hayward's performances in the track events are to be commended, as are those of Herbert in the Javelin, and Radley in the Pole Vault.

At Cricket the House was successful in five of its six matches. Reed deserves praise for the very efficient way in which he captained the team, as do Overall and Gillingwater for their excellent all-round performances. In consequence the team has been strong, but it is also due to the unfailing team spirit that such successes have been achieved. Attendance at these matches, however, has been very poor, and it is obvious that among many members of the House interest is lacking. It must be the aim of all to try much harder in the coming year to revive the House Spirit which has been so much in evidence in the past.

Many thanks to Mr. Woodhouse for the way in which he has conducted all the affairs of the House.

Windsor House Notes

This term the House has been highly successful. The Athletics Sport were won convincingly by Windsor House, who, after obtaining two hundred and thirty-three standard

points, a lead of forty-eight, went on to win the Sports with a total of five hundred and forty-one points, a lead of one hundred and fifty-four and a half points. Jordan, Rendell, Whistlecraft (Senior), Pettit, Pryke J. S., Brennan (U. 15) and Brown (U. 13), must be specially congratulated upon winning their respective events.

In the Cricket Competition the House was placed equal with Tudor House in second position. The results were :—

| | 1st XI. | 2nd XI. |
|-----------|-------------|-------------|
| v. Lancs. | Match drawn | Match won |
| v. Yorks | Match lost | Match won |
| v. Tudor | Match drawn | Match drawn |

The Junior team must be congratulated upon their fine record, not having lost a single match.

In the Swimming Sports the House was again successful beating its nearest rival, Tudor House, by three points. Winterborne, Carlo (Junior) and Pettit (Senior) did very well in winning their events, and Pettit and Winterborne must be further congratulated upon being Senior and Junior Champions respectively.

It is to be hoped that the success achieved this term will be followed by equal success at Football and Fives next term.

Tudor House Notes

During the past year the House has met with no little success and it is evident that many promising Juniors will find their way into first teams in future years.

Cricket has been the main occupation this term and the results are as follows :—

| | | |
|-----------------|-------|------|
| SENIOR | | |
| v. Yorkists | | Lost |
| v. Lancastrians | | Won |
| v. Windsors | | Drew |
| JUNIOR | | |
| v. Yorkists | | Lost |
| v. Lancastrians | | Won |
| v. Windsors | | Drew |

giving the House second equal position in the Competition.

In the Athletic Sports third place was gained, Flack's performance in track events being notable, as well as those of many junior participants.

Our position in the swimming sports was second, a creditable achievement, thanks being due to Wilkin for his organisation and enthusiasm.

We much regret the loss of Mr. Tapster as House-master at the end of this term. We thank him for his services to the House and wish him every success in his new post.

Finally we offer our congratulations to R. L. Flack who obtained 1st XI. colours and to D. Sore on his half-colours.

Lancastrian House Notes

Although the House finished bottom in Athletics, Cricket, and Swimming, our failure has not been so dismal as it at first might seem..

On Sports Day the House started with 184 standard points, which put us in fourth position, where we remained all day, finishing bottom with 295½ points. We did however have some notable successes: Hooper came 1st in the School Hop, Step and Jump; Bullock was first in the Senior Javelin and Halls came first in the Senior Hurdles which became a new school record of 16.1 secs. In the Under 15 Hay was first in the 440 yards, while in the Juniors, B. R. Bridges came first in both the 440 yards and the long Jump, which made him Junior Champion with 34 points. We congratulate him and others on their excellent performances, and especially T. Benge, our Athletics Captain, who works very hard.

The House lost five out of the six cricket matches played, drawing the other one against Windsor. Although our Senior team was fairly strong, boasting the School Captain, Johnston, and Downing, the other Committee member, our failure seemed to lie in the fact that we were always trying to force a result.

We congratulate Johnston on being School Cricket Captain and also Downing on obtaining his 1st XI Half-Colours.

The Swimming Sports brought little success and we again finished bottom, mainly because we have very few swimmers in the House. Death won the Senior one length free style and R. M. Davies won the Junior one length free style.

In the County Championships Hooper was first in the Hop, Step and Jump (15 - 17) and Halls, B. F. Bridges and R. F. Bridges also did well.

Old Boys' Notes

Stittle, as a result of an examination amongst employees of Messrs. Boots, set by Nottingham University, has been awarded a Scholarship to enable him to qualify as a Pharmaceutical Chemist.

We were pleased to see Mr. and Mrs. E. A. Grudgings at School this term.

N. H. Bates, now Major, is with N.A.T.O. in Paris for three years. His brother, P. J. Bates, is with the Green Howards in Malaya.

M. G. Jary has been accepted for a course at Chadacre Agricultural Institute.

J. L. Miles has been offered a place at Bristol University in October.

B. H. P. Turner has been accepted for the London School of Economics.

Congratulations and best wishes to D. M. Kidd on his recent marriage.

I. Roissetter is now a Junior Technician in the R.A.F. at Wittering.

Congratulations to P. J. Farthing on his success in Part I of the History Tripos.

Addis is in the Army in Kenya, near to the Equator, but more than 6,000 feet above sea-level, where it is hot by day and very cold at night. Torrential rain occurs daily in late afternoon and the camp is a sea of mud. He shares his tent with mosquitoes, hornets, lizards and snakes, but prefers these pests to Army Officers! He became engaged shortly before his call-up and looks forward to his return to life as a Civil Service Executive Officer.

Congratulations to B. Burrows on his Second Class Honours Degree in Engineering, London.
