VOL. XXVII., No. 1.

KING EDWARD VI. SCHOOL,
BURY ST. EDMUND'S,
SUFFOLK.

Headmaster's Notes.

IT is very gratifying to learn that the first stage in the building programme for the School will come in the year 1952-3. The plan is that the present Gym. shall be extended considerably in length, which will enable it to be used as an Assembly Hall, and the present Lab. and Lecture Room be converted into Changing Rooms. New laboratory accommodation, together with an Art Room, a Handicraft Room and new Classrooms will be built on a nearby site. This will make it possible to convert the present Schoolroom into a spacious Library and Music Room.

During the past term we have been fortunate enough to acquire an excellent re-conditioned Broadwood Grand—the grant we had for the purpose being supplemented with one hundred pounds which the Minister of Education was induced to release from our "frozen" endowments.

Once again we are grateful for the public spirit of those who are kind enough to undertake the leading role at School functions, and our thanks are extended to General and Lady Gordon-Finlayson for honouring us on Speech Day and to the Hon. Sir Cyril Atkinson and Lady Atkinson for so doing on Founder's Day.

A very good gathering of parents, Old Boys and friends assembled for Sports Day and the programme ran very smoothly, and in excellent weather, in spite of a disastrous morning. Congratulations to P. Abbott and to A. G. Lee, both of whom did well in the Sports, for their continued successes—the former broke the 220 record (15-17) in 24.3 secs. at the Suffolk School Sports and the latter the High Jump record (15-17) at 5 ft. 4 $\frac{3}{4}$ ins. Both have been invited to compete in the All-England Schools Sports on July 21st, at Southampton.

We all extend our good wishes to Mr. Martin and Miss Duquemin who were married on July 21st.

And, finally our good wishes go to those who are leaving us this term—may their friendships never be forgotten and may they win all success and happiness.

Congratulations to A. G. Lee on winning the All England High Jump (15-17) at Southampton with a jump of 5 ft. 5 ins., and to P. Abbott on reaching the semi-final of the 220.

Speech Day, June 28th, 1951.

The importance of a decision being reached early about a career after a boy left school was stressed by Gen. Sir Robert Gordon-Finlayson, K.C.B., C.M.G., D.S.O., at the Speech Day proceedings in the Athenæum.

The speaker told the boys how important it was for them to realise early what they wanted to do, and for them to discuss the matter with their parents and masters.

Sir Robert urged his audience to be proud of themselves, proud of their school, proud of their parents, and proud of their country. If a boy had these ideals, and was a pupil of a good school such as this, he should get on very well.

The speaker thought that the happiest time was when a scholar left school . . . began to struggle to get his feet on the ground, and to expedite his own ideas.

He continued: "The first thing you should feel in your bones is that progress is always with you and you must progress and not let your minds stand still. Think ahead and plan ahead if you don't want to be overtaken."

Personal success was not everything in life, said Sir Robert. This alone would mean that their lives would be very empty, and he thought very miserable.

Personal success was to be encouraged, however, because it led a person into a position where he could help others less fortunate than himself. He could also help his country in many ways.

Prizes were presented as follows:

FOR GOOD WORK.—P. J. Brown, J. D. Mayfield, K. L. Rush, D. F. Smith, W. H. Hardy, P. G. J. T. Parkhouse, G. D. Colson, T. G. Orbell, J. L. Miles, D. H. Taylor, W. Minns.

Founder's Day, July 5th, 1951.

Former Justice of the High Court, the Hon. Sir Cyril Atkinson, LL.D., made an eloquent plea for the practice of the Christian life when he gave the address at the Founder's Day service in the Cathedral.

Among those present were the Mayor and Mayoress of Bury (Mr. and Mrs. C. F. Bennett), and the Right Hon. Sir John Tilley, a former Comptroller of the School.

Sir Cyril said there could be scarcely a phase of sin and suffering with which he had not had to deal during his professional career as a lawyer and a judge. Always he had striven to get to the cause and the root of the evil done.

"As I draw to the end of a crowded life," he continued, "I ask myself what is the most important thing in man's life? My answer is his relationship to God; his realisation of his dependence upon God. Would that I had realised that at schoolboy age.,,"

"With all the experience of nearly 80 years of life I tell you this: that to try and live the Christian life, the true inward Christian life, without the power of Christ within you is to try the impossible. When I have been trying a difficult case and I could not see a clear solution, I have put the puzzle to God; suddenly I have seen the answer—how I must decide. Build up the character of your soul by the power of Christ within you and you will spend eternity with God. Believe me—I beg you to believe me—there is no other way."

Easter Journey, 1951.

The London party and the Bury party having joined at Rugby without loss, we arrived at Kendal in the first sunshine which some had seen for quite a while.

On Tuesday, the 10th of April, we had our first "shake-down" walk along a limestone cliff, known as Scout Scar. It appeared that in going along the cliff edge we passed the body of a gentleman who, the previous evening, had literally and spiritually passed over, but we proceeded without loss.

Leaving Kendal by bus the next day for Grasmere, and having dumped our packs, we set out for the stiffish climb of Helvellyn via Dollywaggon Pike. Here we had our first encounter proper with snow.

Next day, after a most enjoyable walk along the Lakes Grasmere and Rydal Water, we arrived at Ambleside where we had the first of a series of primitive football matches in which the best side invariably lost.

On Friday, April the 13th, we had our first encounter with a "clearing shower" on our way over Greenup Edge where, in places, less fortunate members of the expedition came into violent contact with a mass of soggy mud and plants into which they sank in various undignified postures.

The "clearing shower" experienced here could not, however, compare with the one we met over Honister Pass two days later. Mr. Smeltzer having assured us that the torrential downpour was only a "clearing shower," we set out. After five miles we were soaked to the skin and, despite the cheering influence of songs like, "April Showers," and "Join the Army," we were forced to turn back. Suffice it to say that at nine that evening the "clearing shower" was giving no signs of clearing.

The following day we set out to climb Skiddaw, which is the highest of the northerly mountains of the Lake District. The two ladies were not with us on this occasion, having gone to Keswick where we met them later. Half-way up Skiddaw we had our dinner near a small white hut where a man lived during the summer season selling refreshments. We were the first people he had seen for a week. He had no wireless and it seemed that his only companion was a tame sheep. Having consumed our lunches, which took some time, we continued and reached the top. Here in the distance we could see the foothills of Scotland, but there was a very strong wind and the top was very icy.

On our last day in the Lake District a stragglng member of our number was lost in the thickly wooded area of Thirl-

mere, and it was not until our luncheon was disturbed by a faint call from afar that he was seen at the top of a cliff about a quarter of a mile away.

Next day we started home, but not before we had previously sewn up our leader's pyjama trousers and powdered his bed liberally with talcum powder. H.C.S.

CHARACTERS OF THE ELEVEN.

- *J. A. KOHLER (captain). Without undue ostentation he has led the team through a successful season and as batsman and fielder he has set them a good example; he must, however, learn the importance of maintaining control of his players when they are winning easily. Off the field, the season was too well advanced before he organised nets and rolling duties, but once started he had them carried out efficiently.
- *R. H. SEDDON (vice-captain). The finest batsman in the team. Scores fast and is delightful to watch. This season he has developed into a medium pace opening bowler and has captured many good wickets. His fielding has been excellent.
- *A. T. B. GOULD. It was not until late in the season that he came up to expectations with two fine fifties. His services as a bowler have been small compared with last year, and he must be more active in the field.

- *M. L. COLLIER. Although clumsy as a fielder and unreliable as a batsman, he has been very valuable to the team as a left arm fast bowler. His bowling has been of consistently good length and shows much promise.
- *H. C. SHELBOURNE. A steady batsman who has been most useful in the middle of the batting order. In the field he gathers the ball well, but throwing in is rather wild.
- †R. J. RUSH. Previously only a moderately good bowler he has now become an effective hard-hitting batsman who has played some very good innings. His fielding has been consistently good.
- B. L. LOADES. He has proved himself to be a good, agile wicket-keeper, but unfortunately he has very little batting power.
- J. H. BURROWS. He has been our best slow bowler with his accurate and good length left arm deliveries. Sight, however, handicaps both his fielding and batting.
- C. R. JENNINGS. Half way through the season he was given an opportunity as a 1st XI. batsman and took it admirably. His fielding has room for considerable improvement.
- D. W. MARRIOTT. He has not had many opportunities but is capable of scoring runs. He is fast and smart in the field.
- A. ST. J. JERMY. An all-rounder who has been successful as a 2nd XI. bowler. He could have gained a regular place in the team earlier if he had taken the game, and especially net practice, more seriously. His fielding is generally good.

Also played—

- R. P. DUTTON. A slow batsman who is very safe against fast bowlers. He must be faster in the field and learn to anticipate the placing of the ball.
- D. C. FARROW. A slow right arm bowler who maintains a good length. His fielding varies in quality, and his batting is weak.
- J. DANGERFIELD. On occasions his fielding has been excellent. As a batsman he is unreliable but can produce some good strokes.

Cricket Review.

The First Eleven have had a most successful season thanks to the co-operation of all members in a policy of playing to win rather than draw any game. The fielding has been generally of a high standard which has enabled us to dismiss our opponents for only moderate totals. Unfortunately the opposition has not been as strong as expected so that the best has not been brought out in all players and the tail enders have very rarely needed to bat.

Thanks are due to Collier for marking and Seddon for preparing the pitches.

Captained by D. M. Kidd, the 2nd XI. have met with only moderate success, since their matches have been interrupted by various sports programmes. The Junior teams have been run, as usual, by Mr. Edwards. J.A.K.

C.C.F. Notes.

In the early part of the term we were assisted for three weeks by Nine Travelling Wing, who once again conducted a short Instructors' Course for Post Certificate N.C.Os., and Cadets, and also helped with ceremonial training. The value of these visits was evident when the Contingent was inspected on June 26th by Lt.-Colonel E. P. V. Brewer, A.D.M.E., East Anglian District; although most of the ceremonial had to be cancelled on account of heavy rain, the Instructors' Cadre gave a good account of themselves in their first efforts at instruction. One other noticeable feature of the Inspection which was mentioned by the Inspecting Officer was the steadiness of the Contingent on parade during the formal inspection.

Signals training was carried on regularly until the beginning of the General Certificate Examinations, but little effective work was possible during June and early July with the Senior class. Three N.C.Os. were successful in the Classification on Tests held on July 16th.

Two Field Days were held during the term, one a Map Exercise on June 18th, and one on July 17th when the Contingent combined with the Cadets of the King's School, Ely, in a full day's Field Exercise. The latter was organised by Major Marsh and two P.S.Is. of the Fourth Battalion The Suffolk Regiment. Major Marsh is expecting to go abroad in the near future and our thanks are due to him for the great amount of help he has given us during the past three years both in Field Exercises and in Certificate "A" work.

Many thousands of rounds of .22 ammunition have been fired during the term, one enthusiast managing to get through over one thousand alone, and although our efforts in team competitions were not very successful, the general standard of shooting has been raised considerably. This should have good results in team shooting next year. Forty Cadets qualified as First Class Shots, and sixteen of these obtained Marksmen's Badges awarded by the National Small Bore Rifle Association.

C.C.F. Camp, 1951.

This year the Contingent travelled to the Aldershot area for the week's annual camp, and the excellence of both the Camp site and the training areas more than compensated for the rather long and awkward journey. Except for two shattering thunderstorms on the first day, fortunately after the Drumhead Service had finished, the weather was perfect all the week; and even Sunday's torrential rain failed to dislodge a single tent and created only temporary inconvenience. We were fortunate in having 160 lb. tents, with much greater space for everybody than the old bell tents provided.

The week's training was based on a series of demonstrations in simple Infantry field work given each morning except one by a Regular Platoon; and following each demonstration the various contingents, with the assistance of newly commissioned officers from Mons O.C.S., carried out the training they had seen. One morning was left for Contingents to follow their own devices, and we joined with Portsmouth Southern C.C.F. in a very successful field exercise. On that day Brigadier G. P. Clark, Secretary of the Suffolk Territorial and Auxiliary Forces Association, visited the Camp, arriving at the climax of the "battle." After dinner he gave a short talk to members of the Contingent on their future National Service.

One unusual feature of this year's Camp was the fact that few Cadets seemed inclined to leave the Camp area after the day's work; but no transport was available for the three miles journey from Bourley to Aldershot and a very great effort had been made by the R.E. unit in charge to provide varied occupation and entertainment every evening. Unfortunately Sunday's rain put an end to plans for a Sports Meeting, but each evening there were training and entertainment films in the Camp Cinema, demonstrations of Tanks and DUKW on two evenings, including free rides on the tanks, a model railway constructed by the R.E., an Artillery demonstration, and finally a Concert and Sing Song with the R.E.M.E. Staff Band in attendance on the last evening. On the whole it was a very good Camp and I think everybody enjoyed the week in the open air.

Scout Notes.

This term has been a very busy one for both Junior and Senior Troops.

Butterfield has become a King's Scout and deserves our heartiest congratulations. Lister has gained the First Class Badge and the Scout Cord. Skan joined the Troop at the beginning of the term and, in company with Ransome, was invested at the last meeting.

At the beginning of the term the Troop was well represented at a St. George's Day Service at St. Mary's Church. At Whitsun a week-end camp was held at Hardwick. The weather was not as good as we had hoped, but the camp was much enjoyed. During the School Half-term, Marriott, Abbott and Thomas competed for the County Senior Shield. This competition took the form of a Cycle Marathon, and our team came sixth out of twenty-nine.

We congratulate Butterfield on his selection to attend the Jamboree as the representative of our Troop. His King's Scout Badge was presented to him while at the Jamboree.

The main activity of the Senior Troop this term has been the reconstruction of the Scout Hut under Marriott's direction. It has been cut down to half its original size and re-built on the plots.

The Troop earned £13 during the Bob-a-Job Week last holidays. Thanks Badges have been presented to Messrs. Warne and Hall of the British Red Cross Society for their work in instructing us in our First Aid and Ambulance Badges.

The summer camp was held at Willesley Farm, Cromford. We all enjoyed the camp in spite of the frequent showers. It was one of the most successful camps held, and the Matlock D.C. awarded a Camping Standards Certificate. Many hikes were undertaken, especially by the Seniors. Marriott gained his Camp Warden Badge. We are sorry that he has now left school, and wish to thank him for all the work he has done at this and previous camps. Beatty gained the Cook Badge, while Kohler and Jones successfully completed their First Class Journeys. The trophy for best Junior Patrol was won by the Kestrels under the leadership of D. W. Jones.

The Junior patrol competition results for the term were as follows:

| Patrol. | P.L. | Points. |
|----------|------------|---------|
| Lions | Lister | 153 |
| Beavers | Shelbourne | 100 |
| Kestrels | Jones | 85 |
| Cobras | Gates | 84 |
| | | B.H.K. |

Swimming.

Attendance at the Baths has been erratic; it is disappointing that a number of boys who can swim well have not entered for the Sports or competed for standard points. In spite of this, the standard of the Sports was good, and most of the events keenly contested.

Standard points gained: Lanc. 76; York, 57; Tudor, 103.

RESULTS OF SWIMMING SPORTS.

House Relay. Junior.—1 Lancs., 2 York, 3 Tudor. Senior.—1 Tudor, 2 Lancs.

In a well-contested relay race, a team of Old Boys beat the School. We thank them for turning up.

Final House Points: 1 Tudor 217. 2 Lancs. 172.
3 York 147.

Senior Champion—Gould. Runner-up—White.
Junior Champion—Farrow. Runner-up—Phillips.

The Boarders thoroughly enjoyed the Festival of Britain production of "A Midsummer Night's Dream," in the Cloister Gardens.

The School were given a half-day to enable the boys to visit the Suffolk Show, and later a full day to visit the Royal Show.

Congratulations to P. Abbott and A. G. Lee who, in the Suffolk Sports at Leiston, both won their events and set up new records for the 220 yards and High Jump respectively.

After their examinations the Sixth Form Geography class participated in a social survey of Suffolk, authorised by the University of London. J.A.K.

Old Boys' Notes.

Congratulations to J. M. Ross on his taking a First in Chemistry at Nottingham and being elected a Fellow of the Royal Institute of Chemistry. He expects to continue at Nottingham in research work with a view to his Ph.D.

Congratulations also to T. W. Blumfield on his Second in Chemistry at Nottingham.

O. J. W. Gilbert has taken a post at Bangor University, dollars having interfered with his proposed studies in the United States.

C. A. H. Hodge is working in Cambridge for a few months in connection with his employment in the Rothamstead Agricultural Research Centre.

Congratulations and best wishes to A. R. Thomson who was married on June 28th. He, together with A. B. Rood, C. A. H. Hodge, J. F. Tripp and R. G. Burges-Watson recently spent an afternoon at the School. The latter has just completed his first year at Cambridge. A. B. Rood, having completed his course at Cambridge, is hoping to find a post in South America.

We were sorry to miss the the Rev. M. C. Callis, son of a former Headmaster, when he paid an unexpected visit.

R. P. Dutton has been accepted for a course in Agriculture at King's College, Newcastle, in October.

Congratulations and all good wishes to M. W. Armstrong who was married on April 24th.

We understand that E. F. R. Stearn, President of the old Burians Association, is shortly to be married. Again, congratulations and all good wishes. He will shortly take up a new appointment at a Farm Institute near Norwich.

Once again we were delighted to hear from W. H. Gooch of Adelaide, S. Australia, and to receive his generous donation for the provision of certain refreshment at the Old Boys' Dinner.

Major J. H. Cross was an unexpected visitor on Sports Day. Two days earlier he had flown home from Moscow where he is an assistant military attache.

P. Cooke called to see us on his embarkation leave. By now he should be somewhere in the Far East.

M. Smedley is employed as a Process Engraver in Kettering. He recently spent a term at the L.C.C. School of Engraving in Fleet Street.

R. L. Dodds has almost finished his National Service. He intends to take a post with American Telephones in Antwerp.

G. E. C. Williams will enter Queen Mary's College, London, in October to take a course in Physics.

D. S. Atter has entered a firm of accountants in Moorgate.

J. P. K. Mitchell has now moved to Weston-Super-Mare. Because of this he was compelled to miss his first O.B. cricket match in twenty years.

We were very pleased to see at School Mr. and Mrs. E. T. Whiting, home from Durban.
