

The Burian.

July, 1927.

VOL. XVIII., No. 1.

Editorial.

REST and refreshment come after toil. The Summer Term with all its labours and achievements is finished; and, looking down the vista of Time, our spell-bound eyes at last behold the holidays all ringed about with faery glamour and rainbow radiance.

The Sports were the first event of the term. Although no records were broken this year, except that the number of points amassed by the Foreigners was a maximum, a high level of excellence was maintained.

The Cricket Eleven has also worthily upheld the proud tradition that the School is good at games, and to date has not lost a match. With such a well-balanced team it is dolorous to relate that all matches with other Schools have been cancelled, since an outbreak of mumps, which began two days after the first session, and continuing to the end of term, has prevented inter-school fixtures being played.

Old Boys who were at Bury from 1879 to 1890 will hear with the keenest regret of the death of Charles Sankey who was "High Master" of the School during that period. Although of late years he has lived in the South of France, he continued to take the keenest interest in the School. We commend to our readers' attention the appreciation of this great Headmaster and well-loved man, to be found in the succeeding pages, which has been written by one of his own Old Boys.

May we call attention to the fact that the date of Speech Day has been altered to Thursday, October 18th, to suit the convenience of the Comptroller. Prize winners will doubtless remember the date which falls 28 days after the commencement of the term, and we trust all our other readers will make a note of it and grace the gathering with their presence.

We are pleased to see that the Old Boys' Association is steadily increasing its membership and strengthening its connection with the School. That the Old Boys are getting more together is indicated also by the account of the doings of

some of them at an R.A. camp, to be found in this issue, and by the rumours that we hear of the adoption of a sport's blazer and a tie composed of all the colours of the School, or is it of the rainbow?

It would be a great convenience, and much appreciated, if those members of the O.B.A. who have outstanding subscriptions would make a point of sending in their subscriptions immediately on receiving the request slip. We feel that it is only necessary to mention this to ensure its being done.

May we also draw the attention of all Old Boys to the notice *re* the making up of the "Green Book."

The O.T.C. and the Scouts have been doing good work and have again earned excellent reports.

As to work, we await the results of exams. with what patience is left us after a year of hard work, containing two terms of attendance broken by illness, but still with some hope that our efforts shall not have been in vain. May the consummation of this hope add pleasure to the holidays of all.

The Sports.

The Sports were held on Thursday, May 12th, a week later than at first arranged owing to the Royal Visit to Bury. The day was fair with a cool breeze. A large gathering of visitors included:—

Dr. Armitage, Mr. H. Barker, Major Balders, Mrs. and Miss Baskett, Miss Baden Powell, Mr. and Mrs. Bluett, Mr. and Mrs. Burt, Mr. and Mrs. E. G. Baskett, Mr. and Mrs. Bacon, Mrs. Brighton, Mr. and Mrs. A. E. Crack, Mrs. and Miss Caie, Mrs. Cooper, Mr. and Mrs. C. J. Cooper, Mr. and Mrs. Carter, Officer Commanding and Officers, Depot Suffolk Regiment, Mr. and Mrs. Evans, Miss Fry, Mr. and Mrs. Fulcher, Mr. and Mrs. Fellgett, Canon and Mrs. Goldsmith, Mr. and Mrs. Grudgings, Mr. and Mrs. Grainger, Mr. and Mrs. Morgan Gray, Mr. and Mrs. Henniker-Wright, Major and Mrs. Hendin, Dr. and Mrs. Hinnell, Mr. and Mrs. Higgins, Mr. and Mrs. Haddon, Mrs. Hallam, Mr. and Mrs. Jamblin, Mr. and Mrs. H. Jones, Mr. and Mrs. Jarman, Mr. and Mrs. Kiddy, Mr. and Mrs. H. G. King, Mrs. C. W. A. King, Rev. and Mrs. Ingate Kilner, Mr. and Mrs. Lee, Lt.-Col. and Mrs.

Long, Mr. and Mrs. Lacey, Miss Ledward, Mr. and Mrs. Mitchell, Mrs. Mathew, Mr. and Mrs. Newbatt, Mr. and Mrs. Nice, Mr. and Mrs. Pellew, Mr. and Mrs. Porter, Miss Pace, Mr. and Mrs. Rudd, Mr. and Mrs. Richdale, Rev. and Mrs. Hugh Rodger, Mr. and Mrs. Shoberl, Rev. and Mrs. F. E. Smith, Major and Mrs. Sampson, Mr. and Mrs. Hastings Snow, Miss Steel, Mr. and Mrs. A. C. Smith, Mr. and Mrs. Sarginson, Mr. and Mrs. Tilbrook, and the Rev. and Mrs. Sandford. There were also many Old Boys present.

Of the Events decided before the Sports Day, the Mile was the most exciting; Bond winning the Old Boys' Cup with Stokes close up. The Cricket Ball was again won by Stokes, with a throw of over 100 yards, while for the second time Marshall came home first in the Cross Country at the head of a considerable field. In the High Jump, Stokes cleared 4 ft. 9½ ins. and won the event from Smith who jumped very gracefully.

The Visitors' Race, a new event was added to the programme. The entries were so numerous that both a ladies' and a gentlemen's race were resolved upon. Their popularity, and the enthusiasm aroused, marked them as standard features of the Sports for future years.

The results of the Events were:—

- CRICKET BALL.—1 Stokes, 2 Lee, 3 Wright. Distance, 100 yds. 5 ins.
 MILE.—1 Bond, 2 Stokes, 3 Marshall. Time, 5 mins. 44 4/5 secs.
 HIGH JUMP.—1 Stokes, 2 Smith, 3 Ruoff. Height, 4 ft. 9½ ins.
 CROSS COUNTRY.—1 Marshall, 2 Bond, 3 Turner. Time, 22 mins. 30 4/5 secs.
 SCHOOL 100 YARDS.—1 Stokes, 2 Bacon, 3 Gould. Time, 11 secs.
 100 YARDS (under 15).—1 Caie, 2 Baskett, 3 Pellew. Time, 12 4/5 secs.
 100 YARDS (under 13).—1 King, 2 Mitchell, 3 Husk. Time, 13 2/5 secs.
 HIGH JUMP (under 15).—1 Fulcher, 2 French, 3 Lawrence. 4 ft. 4 ins.
 220 YARDS.—1 Stokes, 2 Bacon, 3 Gould. Time, 26 secs.
 SCOUT STRETCHER RACE.—1 King ii, Lawrence and Elgar, 2 Long i, Parmenter and Felgett.
 LONG JUMP.—1 Stokes, 2 Bacon, 3 Wright. Distance, 18 ft. 5½ ins.
 QUARTER MILE (under 15).—1 Caie, 2 King, 3 Fulcher. Time, 1 min. 13 4/5 secs.
 SCHOOL QUARTER MILE.—1 Bacon, 2 Stokes, 3 Lee. Time, 1 min. 8 2/5 secs.
 HALF MILE HANDICAP.—1 King iii, 2 Rudd, 3 Tilbrook iii.
 JUNIOR (under 10).—1 Ortwell, 2 Ricketts.
 JUNIOR (10—11).—1 Tilbrook iii, 2 Booth ii.

SACK RACE.—1 Burnside, 2 Windsor, 3 Lacey.
 OLD BOYS' RACE.—1 Thurlow, 2 Plumridge, 3 Fulcher.
 EGG AND SPOON RACE.—1 Grantham, 2 Shobler.
 TUG-OF-WAR.—Foreigners.
 MILE RELAY.—1 Tudors, 2 Lancastrians.
 100 YARDS FORM RACE.—1 Lancaster, 2 Yorkists, 3 Tudors.
 HOUSE AGE RELAY RACE.—1 Lancastrians, 2 Tudors, 3 Yorks.

The Challenge Bowl was won in fine style by the Foreigners with 1,069 points as against the Royalists' 843. The Foreigners have now won it five times and the Royalists twelve.

Also the Tudors won the Sports' Shield with 1219 points to their credit, the Lancastrians gaining 950 points, and the Yorkists 193.

The Cups now held by the Royalists are (Dr. Caie's) 100 yards Form Race; the House Age Relay Race (Mr. Carter's); the P.T. Cup for Easter Term (Mr. Milford's); all won by the Lancastrians; and the Games Cup; while the Foreigners (or Tudor House) hold the Guinness Challenge Cup, the Comptroller's (Mr. E. L. D. Lake's) Mile Relay Race Cup, the Tug-of-War Cup (Messrs. Oliver's), the Sports Shield, and all three Games Shields.

F. R. Stokes won the School Championship, gaining 46 points, which is only one less than Robinson's record of last year. He took first place in the Cricket Ball, the High Jump, the 100 Yards, the 220 Yards, the Long Jump, and seconds in the Mile and Quarter-Mile. I. S. Caie carried off the Junior Championship Cup, with 12 points, running out first in the 100 Yards and Quarter Mile, under 15.

The points for the High Jumps have been raised in the Senior event to 10, 5, 2, and in the Junior to 6, 3, 1.

Both the Relay Races were fine events, but the Tug-of-War was the most thrilling item of the day. The Foreigners, ably captained by Stokes, who had assiduously trained his team, adopted the new method of working without a "coach" and tugging in a succession of continuous short heaves. This method was so successful that the Royalists were not given a chance to get in a single heave and two tugs sufficed for a decision.

Although no records were broken, the standard of running and the times recorded were distinctly good.

Amongst the Seniors, besides the Champion, Bacon ran well, especially at the shorter distances, and Bond in the longer events, while Lee caught the eye as a sturdy, promising runner. At both jumps Smith shaped well. Amongst the Juniors also a deal of talent showed.

The Prizes were presented to the winners by Mrs. John Greene who also gave to each runner his meed of praise. The proceedings closed with pleasant speeches and ringing cheers, after which the Headmaster and Mrs. Wadmore entertained the assemblage to tea.

Prizes and donations were given towards the Sports by H. Bankes Ashton, Esq., Archdeacon Farmiloe, Lt.-Col. G. H. Long, Lord Bristol, Dr. J. S. Hinnell, S. J. M. Sampson, Esq., Mrs. Wadmore, B. W. Lacey, Esq., J. Ridley Hooper, Esq., A. Oliver Lusher, Esq., R. B. Manley, Esq., Mrs. Wadmore, Mrs. O. Wadmore, the Headmaster, and an anonymous donor.

We desire to take this opportunity of thanking all those who so kindly gave their time and help thus ensuring the success of the Sports.

Obituary.

CHARLES SANKEY.

Many will regret to hear of the death, at Cimiez, at the age of 84, of Mr. Charles Sankey, who for 11 years was headmaster of King Edward VI. School, Bury St. Edmund's. Educated at Marlborough and Oxford, he was for a time an assistant master at Marlborough, and in 1879 was elected to the headmastership of the Grammar School at Bury St. Edmund's, which post he resigned in 1890 in consequence of a divergence of opinion between himself and the governors on points of school policy. But he was at once offered, and accepted, a mastership at Harrow, which he held until 1905. Soon after that his wife's health made it necessary for him to remove to the South of France. He survived her by only a few weeks. *The Times* speaks of him as a good classical scholar, widely read in English literature, a brilliant and most stimulating teacher, and one whose ability and interests centred in history, ancient and modern. He was a keen and capable musician, and was a considerable athlete, and was a man of many friends, especially in educational and literary circles. He will be missed by numerous old pupils whose regard and affection he retained to the end, and by a few still surviving colleagues to whom his memory is dear.

It is rather with a feeling of unworthiness that I attempt to write an adequate eulogy on one of our greatest Headmasters. There are many who knew him better than I. Those who knew his private life—I remember my father always spoke of him in the highest terms. I think my affection for Charles Sankey began from the first day, when, as a nervous new-boy, I was examined, alone, by him in his study. He was so helpful and encouraging and made the most of the sparse information I could give him. Forty-three years is a long time to look back on and my readers must forgive disjointed reminiscences. In a long experience of scholastic life I can without hesitation say that Charles Sankey is the most ideal Headmaster I have met. He had that wonderful power of really understanding boys. Most Masters can understand the conventional Public School Boy, but few can get to know the exceptional boy, the so-called eccentric and shy boy. In this Charles Sankey was pre-eminent. Always lenient with the ordinary failings of the human boy, stern and unrelenting to vice or meanness. He

could distinguish between a mean action done involuntarily by a boy naturally honest, and an action done by a boy of vicious character. He made our School such a happy school. By misfortune, not by fault, I went to other schools besides Bury St. Edmund's. At no school was I so happy as at Bury. This fact I attribute to Charles Sankey. I came under his displeasure more than once, unfortunately. But even this fact only taught me to appreciate his worth. I remember once spending two hours alone with him in his study learning Greek verbs. He had that great saving grace, a sense of humour. I remember once we had a craze for collecting articles squashed by trains on the line. Three of us, one half holiday, got leave from the Head to go fishing. We had no intention of doing so, but wished to add to our collection. We settled ourselves at a level crossing (having salvaged our consciences that this was a type of fishing!) and set to work. In the midst of our researches we saw the Head coming across the fields. Of course we bolted. We expected trouble. Next day, however, he passed the matter over with a caustic remark that "a rod and a piece of water were necessary adjuncts to the sport of fishing." He added that on future occasions we should supply that deficiency. It is a matter of deep regret to me that I discovered he was a neighbour of mine on the Riviera too late for me to call on him. To my great regret I learnt of his death. What greater tribute can I pay him, than by saying that I feel his loss though I have not seen him for forty-two years. My feelings are those of many others who were happy enough to be boys under him. Charles Sankey was an excellent Classic, not only was his own teaching of a high order, but he seemed, as it were, to breathe into the School sound classical traditions. Bury School, in proportion to her size, could hold her own with any Public School in England. Charles Sankey was a keen cricketer, and I think I am correct in saying he was the first to score a century on our present ground. The School was removed from Northgate Street during his time, just before I entered the School. I suppose it is the lot of all of us to have failings, and Charles Sankey may be no exception to the rule. Yet we boys were happy in never discovering any short comings in our truly beloved Headmaster. The best I can wish my old School is that in future we may have others like him to guide the fortunes of the "best school in the world" and make King Edward VI. School always the happy School it was in my day. R.I.P.

L. McA. WESTALL.

Scholar Buriensis Alumnus.

SIR JOHN CULLUM, BART., M.A., F.R.S., F.S.A.
1789—1785.

John, eldest son of Sir John Cullum of Hawstead and Hardwick, 5th Baronet, and Susanna, daughter and co-heiress of Sir Thomas Gery, Knight, was born at Hawstead on the 21st of June, 1788, and was baptized in the Chapel at Hawstead Place on the 19th July following. His young days were undoubtedly spent on the fine old estate, now being broken up. In June, 1740, he was admitted to the Bury School as a Foreigner, after which he went to St. Catharine's Hall, Cambridge. Here in 1756, he took his B.A. degree. The Classics were his favourite study, in 1758 he obtained the Member's Prize for the best dissertation in Latin prose. He was chosen Fellow of his College, and was only just defeated in an election for the Mastership. He subsequently left Cambridge and began his Clerical duties.

In April, 1762, he was presented by his father to the Rectory of Hawstead, which living he held till his death in 1785. In December, 1774, he was instituted to the Vicarage of Great Thurlow, Suffolk, and in this year he succeeded his father as 6th Baronet. Cullum was a great scholar, and from his youth was an eager antiquary and man of science. Earlier in the year he had been elected a Fellow of the Society of Antiquaries, and in the following year a Fellow of the Royal Society. He was an accomplished botanist, and projected a new "Flora Anglicana," which, however, was never published. Sir John, however, is best known for his antiquarian works.

He devoted a great part of his life to the preparation of "The History and Antiquities of Hawstead and Hardwick in the County of Suffolk," which was first published in 1784. This was his only book of importance, but he made collections for a "History of Suffolk." These collections are a monumental work, consisting of three stout M.S. Volumes in the Cullum Library at Bury. He contributed several papers and letters to learned publications, among which may be numbered, "On the growth of Cedars in England," "On Yews in Churchyards," "An Account of an Extraordinary Frost, 23rd June, 1788," "An Account of St. Mary's Church at Bury," "A Description of the Hospital of St. Petronilla at Bury," "A Letter describing Little Saxham Church, Suffolk," and "Some Notes taken at Reculver, 9th September, 1782." Several of his

diaries and books of correspondence are preserved at Bury. They testify to the number and greatness of his friends, and the value they set on his acquaintance. Among his intimates were the Duchess of Portland, Mrs. Delany, Richard Gough (who wrote his famous "Sepulchral Monuments" at Cullum's instigation), Dr. Michael Lort, Peter Sandford, Thomas Pennant, Rev. George Ashby, Rev. Michael Tyson, John Lightfoot, the Rev. William Cole. Sir John appears to have been engaged in his work up to his decease.

Sir John Cullum died of consumption on 9th October, 1785, and was buried at Hawstead, where a simple tablet is erected to his memory. He had married at West Ham, Co. Essex, Peggy, only daughter of Daniel Bisson, on 11th July, 1765; she survived him till 1810. A good portrait of him was formerly at Hardwick House; an engraving of this now hangs in the Big School. Cullum was a man devoted to his clerical and scholarly work, and a worthy upholder of the best traditions of "Schola Buriensis." E.R.B.

Have You a Waterman?

If not, an ordinary pen will do just as well. But in any case, will all Old Buriens please send me a skeleton history of their lives since leaving School? As I stated in last term's *Burian*, the history of the School, as published in the Suffolk Green Books in 1908 under the title of "The Bury School List, 1550—1900," is being amended and brought up to date. For this purpose it is absolutely necessary that every Old Boy should do his bit by supplying that information concerning himself which it is quite impossible to obtain by any other means.

My appeal last term brought one answer. One does not like to think that this is due to indifference as regards the School. Therefore it must be due to that feeling of reticence concerning self which is natural to most people. But may I be forgiven if I say that in this case it is humility of an extremely selfish and somewhat lazy nature? The School is very interested in you and your doings, and if you only send me your present address you are helping things along considerably more than you may think. So please take up that Waterman and DO IT NOW! Thank you. Letters should be addressed to me at, "Courtleroy," Benhill Wood Road, Sutton, Surrey, or else sent to the School.

G. V. RICHDALÉ.

London Letter.

"City train! Change at Kennington for Charing Cross!" Then "Hurry along there please! Mind the doors!" and then we are roaring through the tunnel again, one hundred feet below street level, and always citywards. Thus several hundred thousand city men go to business every morning. At first one hates the noise, the constant hurry and confusion. Later one becomes so used to it that it all passes unnoticed. But on a hot day, how refreshing it is to get into the cool fresh air once more after half-an-hour in the Underground! And there are many shady, and even quiet, places in the very centre of the City, the heart of the business world. As the writer of last term's "London Letter" said, there is a bowling green in Finsbury Circus. Furthermore, there is a tennis court just off Bishopsgate. And here I should like to say, as a definite reply to various questions I have been asked by readers of the letter to which I have just referred, that the remarks therein concerning Finsbury Circus and sausage rolls, DID NOT refer to me. In the first place I have never eaten, and I hope I never shall eat, a sausage roll or ham sandwich in Finsbury Circus, and in the second place, C. J. H. is much too polite to say so, even if I had been guilty of such an act.

It is remarkable how quickly a crowd collects in London. If one stops and looks intently at a building for a few minutes, there will soon be quite a crowd, all looking at it, to see why everyone else is looking at it. The other day I saw a large crowd outside the Mansion House. I stopped and asked a man for what he and everyone else were waiting. He said, he didn't quite know, but he thought it was the Duke of Turkey! It proved to be King Fuad of Egypt.

Few events have caused so much excitement in the City lately as the raid on Arcos a few months ago. Dense crowds collected outside the building in Moorgate, and whole posses of policemen were required to move them on. Yet there was nothing to be seen except the closed doors of what is one of the most uninteresting looking sets of offices in London.

Great amusement was caused not long ago by a cart horse in Cheapside. Just as it was about to cross a road, a policeman held up the traffic. The horse thereupon sat down very calmly and waited until the signal to move on was given. It then

stood up, and continued on its way! It had doubtless taken to heart that little motto which says, "Rest while you may, for life is short."

The other day I came across an Old Burian living at Banstead. He is E. W. Wright, who was at the School from 1895—1901. How many O.B.'s remember him I wonder? There must be many Old Burians who live in London, who have got out of touch with the School. If they would only join the Old Boys' Association, and answer the really urgent request printed elsewhere in this magazine, we might have some very large and interesting O.B.'s dinners and meetings in Town from time to time.

G. W. Gowen is now in the Regent Street Branch of Barclay's Bank, next door to Liberty's. We shall soon be able to have a bankers' branch of the Old Boys' Association.

One thing more, St. Mary Axe is pronounced "Simmery Axe," whatever "Punch" may say.

G.V.R.

Impressions of a Territorial Camp (R.A.)

(As no doubt many of the readers of this issue of the *Burian* have read, some of the Old Boys have joined the "Terriers" and this year they experienced the life of an Artillery Camp).

We arrived at our destination, Trawsfynydd, N. Wales, after a long and tedious journey of nearly 14 hours; but the beauty of a sunrise among the hills from the rocky ledge of the railroad was certainly a slight compensation for our tiring journey.

The Battery which was 70 strong, with 4 guns and 80 horses, the Morris Gun tractors having already arrived, detrained and with our equipment we moved into Camp.

Scarcely had we reached our lines than we experienced a typical Welsh storm, the rain falling solidly, as it seemed, for 22 hours, but it did not damp our spirits as we had been fore-

warned of the general weather conditions of the district and were fully prepared. Fortunately, however, these gloomy predictions were not altogether realised.

We turned in after our herculean labours and soon fell asleep despite the weather, but were awakened early by Reveille at 5.30, and after the rush for the washhouse and then "Stables" we gladly welcomed the Breakfast Call.

The first week was mostly spent in gun drill, signalling classes, and also riding, on the steepest slopes that could be found; after 4 o'clock the rest of the day was ours.

The evenings were whiled away in "Tin Town," a small collection of shops and cafés, and later on by holding sing-songs in the tents until, usually, after midnight.

The second week of the camp was more interesting because we carried out firing practices on the ranges, it being the first time the battery had fired "live" shell, and when the C.R.A. and his Staff complimented the gun teams on their general efficiency and steadiness it was certainly very encouraging, especially as most of us had only joined this year.

The Battery Staff, which is chiefly composed of the Old Boys who joined, was specially commended by the C.R.A. on its serviceable smartness and efficiency. This of course reflects credit on the O.T.C. which gave us a good schooling in military training, and made us keen.

Although camp life was sometime irksome and everybody grouched, like old soldiers, it had its humorous side, and it tended to make us exercise our ingenuity, self-reliance, and sense of discipline.

His Majesty the King has already consented to become our Colonel-in-Chief once again, as soon as we reach full strength, which we hope to do before next year's Camp, where he will probably inspect us.

It is hoped by our Commanding Officer that other Old Boys will join the Battery and either form a "pukka" gun team or supplement the Battery Staff; they will be assured of a hearty welcome and all help possible will be given them by the present O.B. "Terriers."

W.A.C.

Verse.

"BURY SCHOOL."

School of Bury! Think and ponder
On the story of the past;
How this honoured school was founded
And endowed, that it might last,
Long as England, 'midst the nations,
Kept her flag nailed to the mast.

Founded years ago by Edward,
Best of the great Tudor race,
That the children of his country
Might attain their rightful place,
And might play in England's story
Parts of wisdom and of grace.

Here within the School once studied
Priest and prelate, poet, peer,
Admiral and gallant soldier
Scorning death and craven fear;
Princely counsellors and stewards
Served their King as they learnt here.

They are gone—but with us lingers
Honoured mem'ries of them all,
And that we may ne'er forget them,
We enthrone them in our Hall,
That we may gain inspiration
As they cry "Hear ye our call!"

Boys of Bury! Do you hear them?
Are you going to obey?
Will you follow in their footsteps,
And live nobly day by day,
Doing work for sake of duty,
Not for marks or love of pay?

"Play the game!" they call unto you,
"Play the game! This noble School
Calls to you to be a leader
Of the world—calls you to rule."
Answer: Raise your hearts and voices,
"We are coming! Play up School!"

J.R.M.W.

Cricket.

BURY SCHOOL v. WESTGATE BREWERY 2nd XI.

The match was played on the School ground, on Saturday, May 28th, 1927, on a hard wicket.

The visitors won the toss and elected to field first. Randall and Morley opened the School's innings, Morley being dismissed while the score was but 11, to which he had contributed 6. Lacey followed, and with Randall made a splendid partnership, bringing the score to 63 before he was caught. Then Stacpoole joined Randall and carried the score to 136 for 3 wickets, when the latter was bowled by a leg ball from Andrews, the Brewery's most successful bowler. With 87 runs to his credit he had made a bigger individual score than the School has seen for years.

The School now had the task of dismissing their opponents in 1½ hours.

Throughout the visitors' innings it seemed doubtful if the School would be able to evade the draw, although the batsmen, in a most sporting way, came down to the wicket immediately a man was out. This doubt was increased by the plucky batting of the Brewery team, who made the praiseworthy score of 82, to which Andrews contributed 26, and Jacobs 15.

But Wright, the School captain carefully manipulated the bowling, and permitted no batsman to get set, by constantly changing his bowlers.

Two features of the School's play were Marshall's three wickets for 7 runs, and the wicket-keeping of Morley, a new-comer in this position. He caught no less than three batsmen and let only 1 bye past.

The game was fought out until the School won a very enjoyable and exciting match by 7 wickets and 54 runs.

T.B.F.R.

BURY SCHOOL v. TRADESMEN.

This match was played on the King's Road Ground, on Thursday, 25th June. The weather was ideal for cricket.

The School won the toss and elected to bat first. Runs did not come very fast until Fulcher took his stand at the wicket. He made a fine effort, scoring 60 not out.

The School compiled 150. Pawsey bowled well for the Tradesmen taking seven wickets for 53 runs.

The Tradesmen then batted making the small total of 44, 15 of which were made by G. Fulcher.

The School bowlers were in great form, Ruoff taking four for 16, Lawrence two for 1, and Fulcher two for 4.

Thus the School won a very enjoyable game by 106 runs. Scores:— E.H.W.

BURY SCHOOL v. THE BARRACKS.

This match, played at home, was spoilt by bad weather. The School won the toss and batted first.

The wicket was rather wet, but runs came quickly. With 104 for 5 wickets the School declared, Stacpoole making the top score of 24 not out.

The Barracks with just an hour to bat, collected a quick 54 for 5 wickets, Lt. Yates making 26. Scores:— A.R.

BURY SCHOOL v. MR. E. L. D. LAKE'S XI.

The above game was played on the Victory Ground, and ended in a draw, stumps being drawn at 6.30.

The School batted first and the rate at which runs came indicated that bowling was very accurate. The School put on 80 runs in the first hour; soon after this, Randall, who had batted solidly since the commencement, was out for 22.

Runs continued to come very slowly, and the innings closed for 95. Over 50 singles were run, and the one bright innings was Stokes' 14.

A slight shower had made the ball very greasy for the bowlers, when the Mayor's XI. went in to bat.

Major Sampson and Charrington opened the innings, the latter hitting up 88 in fine style in about ten minutes. The remaining batsmen were not so impressive, Messrs. Francis and J. Ashton, who have played many a game with the School, were together when stumps had to be drawn.

Fulcher was the most successful of the School bowlers, taking three for 7. Scores:—

BURY SCHOOL v. BURY THURSDAY XI.

This match was played on July 7th, and the weather was not very cricket-like at first. Winning the toss, the School batted and put on 21 runs before the first wicket fell. After that wickets fell at fairly even intervals, and the School declared with 85 for 8 wickets on the board. Morley's 84 was the best innings.

With about an hour in which to score the runs, the Thursday XI. did not fail to try to get them. Turvey (18) was the most successful bat. When stumps were drawn the Thursday XI. had got 54 for 7. Ruoff (School) took 5 wickets for 22 runs. Result—match drawn. Scores:—

BURY SCHOOL.—Morley, b Turvey, 34; Stacpoole, lbw, b Harrington, 12; Ruoff, c Williams, b Turvey, 7; Gould, c Harrington, b Williams, 0; Wright, c Taylor, b Turvey, 8; Stokes, b Turvey, 0; Lacey, c Turvey, b Taylor, 9; Lawrence (not out), 7; Marshall, run out, 2. Lee and Jones did not bat.

ROYALISTS v. FOREIGNERS.

This match was played on Saturday, June 11th. The Foreigners won the toss and decided to bat. The start was disastrous, the first two wickets falling for two runs. The Foreigners' captain, Ruoff, then came in and played a steady game, but he could get no one to stay with him and carried out his bat for a meritorious innings of 15, being the only member of his side to reach double figures. The Dayboys fielding was alert and their bowling on the stumps. Lawrence i. and Wright did the greatest execution, Lawrence i. capturing 5 wickets for 4 runs and Wright 8 for 8, while Lacey kept wicket with skill and sang froid. The Foreigners innings closed for 26, contributed by four batsmen and an extra.

The Royalists, with this small total to knock off, lost their first wicket for 3 runs, but Wright and Gould getting together the runs were soon obtained, Wright scoring 41 runs in confident style before being caught at the wicket, while Gould obtained 19. No other batsman gained double figures, Fulcher, who looked like making a score, being out to a splendid catch by Stokes at deep cover to Ruoff's bowling. The innings ended at 86, the Royalists thus winning by 60 runs. Marshall bowled well for the Foreigners, getting five wickets for 31 runs, and Stokes took three for 18. Scores:—

Total ... 26	Total ... 86

BURY SCHOOL v. MR. J. N. B. ASHTON'S XI.

On Saturday, July 2nd, Mr. Ashton brought up an eleven at short notice. Substitutes from the 2nd XI. were played on each side owing to shortage and mumps.

The School, batting first, were dismissed for the moderate total of 70, Stacpoole and Lacey being the highest scorers with 17 and 16 respectively. Ashton and Cottam being the most successful bowlers.

After tea, Lawrence, Marshall and Wright were in good form, and the visiting side were accounted for for 42, no less than five wickets falling to catches, Ashton alone offered resistance, being last out with 19.

The School putting the visitors in again had secured eight wickets for 60 when stumps were drawn. Thus the School, after a very pleasant game, gained their third win of the season. Scores:— J.N.M.

BURY SCHOOL.—Morley 8; Stacpoole 17; Gould 3; Wright 0; Stokes 0; Lacey 16; Ruoff, not out 8; Lawrence 0; Marshall 10; Lee 0; Jones 0; Extras 10; Total 70.

MR. ASHTON'S XI.—First innings, Dennis 0; Cottam 7; Champness 6; Burlingham 0; J. N. B. Ashton 19; G. Fulcher 3; Birmingham 3; L. Fulcher 0; Pellew 0; Turner, not out 2; Extras 1; Total 41. Second innings, Dennis 15; Champness 3; Burlingham 1; J. N. B. Ashton 11; G. Fulcher 4; Birmingham 1; L. Fulcher 4; Abbott 2; Pellew, not out 3; Turner, not out 15; Extras 1; Total (for 8 wickets) 60.

CHARACTERS OF THE ELEVEN.

- *E. H. WRIGHT (Captain). An able captain who has developed and led his team well. A very keen field, a capable bowler, and a strong bat. In the latter category he has scarcely done himself justice.
- *A. RANDELL. A very steady opening batsman. His fielding is apt to be erratic.
- *D. FULCHER. A good forcing batsman. Fields well, but must learn to use two hands. A very useful change bowler, rather apt to bowl short.
- †T. B. F. RUOFF. An experienced bowler with control of length and break. His batting has improved considerably; he is learning to stand up to leg balls.

*A. W. STACPOOLE. A very steady and reliable batsman, should seek to increase his rate of scoring and force of strokes. A tricky slow bowler and a good fielder.

F. R. STOKES. A capable fielder, who has excellent throwing qualities. As a batsman he has been unsuccessful, being unable to overcome the desire to hit every ball. A useful fast change bowler but somewhat erratic.

†C. F. GOULD. A good batsman who has had bad luck. In the field he is inclined to be slack, but when properly aroused shows excellent abilities.

†R. I. LAWRENCE. An excellent medium pace bowler, who has earned his success. A keen fielder. As a bat he has failed owing to his desire to make runs too quickly.

†J. N. MORLEY. Has shown himself an excellent wicket-keeper. A good opening batsman, but too satisfied once he has made a few runs. He should try to hammer the bowling after breaking it.

†H. K. MARSHALL. Although small is an excellent fast bowler, keeping a good length and having extraordinary pace. He plays a sound straight bat and exhibits many useful scoring strokes. Has excellent capabilities as an all-round cricketer but is handicapped by size.

M. L. LACEY. An excellent fielder and good wicket-keeper. As a batsman he has been successful, although at times he is inclined to be erratic.

*1st XI. Colours, 1927. †1st XI. Half-Colours, 1927.

SECOND ELEVEN CHARACTERS.

- *B. F. LEE (Captain). A painstaking and decisive captain. A reliable bowler and a hard-hitting bat, who uses his judgment.
- *D. E. TURNER (Vice-Captain). Rather a cramped batsman. He fields well and is a good catch.
- *F. H. JONES. Although an awkward batsman he can be relied upon to get runs. He is a safe fielder.

*H. Y. LAWRENCE ii. A good bowler, rather handicapped by size. He is a promising batsman.

*J. C. JOHNSON. Tries hard at batting, and he is a very reliable fielder.

†C. W. COOPER. Is a steady batsman, and although small he fields well.

†G. H. F. SMITH. A good fielder. He is apt to be reckless at batting.

†J. C. BRIGHTON. A fair batsman who can force the pace; a steady fielder.

†E. PELLEW. A smart fielder. He hits hard, but would do better if he watched the ball more carefully. A promising bowler inclined to bowl too fast and far too short.

C. CHARLES. Fields well and shows promise in batting.

F. P. SHOBERL. Although not a strong hitter he has a good style, and is also a passable change bowler.

*2nd XI. Colours, 1927. †2nd XI. Half-Colours, 1927.

CRICKET ACHIEVEMENTS.

BREWERY 2nd XI. (H). MAY 28th.

A. Randell made 87 runs.

M. L. Lacey made 33 runs.

J. N. Morley made 3 catches and conceded 1 bye.

TUDORS v. LANCASTRIANS. JUNE 2nd.

F. R. Stokes made 38 runs.

H. K. Marshall took six wickets for 9 runs.

LANCASTRIANS v. YORKISTS. JUNE 9th.

H. Y. Lawrence ii., took five wickets for 10 runs.

ROYALISTS v. FOREIGNERS. JUNE 11th.

E. H. Wright made 41 runs.

Lawrence i. took five wickets for 4 runs.

TRADESMEN (A). JUNE 23rd.

D. Fulcher made 60 not out.

T. B. F. Ruoff took four wickets for 16 runs.

BARRACKS. (H). JUNE 25th.

A. W. Stacpoole made 24 not out.

MR. J. N. B. ASHTON'S XI. (H). JULY 2nd.

R. I. Lawrence took four wickets for 15 runs.

Games Review and Prospect.

The Sports occupied the first fortnight of the Summer term as well as the last week of the Easter term. For once the weather was passable, and there was an increased number of visitors. The events were well contested and the times good.

Cricket began in Mid-May and a very useful team was soon collected. It has proved itself the most all-round team of recent years, and perchance would have shown itself the most successful, given the opportunity. Unfortunately, the mumps stopped all School matches, and even attacked members of the team, while rain cancelled several other fixtures. To date six matches have been played and the XI. is undefeated, having won three of the games and drawn the rest. In batting Randell, Fulcher, and Stacpoole have distinguished themselves, Randell's effort of 87 being the highest individual score. The most successful bowlers have been Lawrence i. and Marshall ii., the former bowls with considerable judgement, and the latter with phenomenal speed, while Ruoff, the team's most experienced bowler has more than done his bit. With two exceptions every member of the team can bowl a useful ball, and the Captain has given him opportunity to do it. The fielding on the whole has been good, on cold and damp days catches have gone astray and the gathering of the ball has been rather uncertain, but generally the fielders have been quite alert, and the throwing in has been excellent. Morley, at the wicket, has done well and proved himself a worthy successor to Gowen. Calling and running between the wickets has improved, but many batsmen are still "sticky" about getting off; and conversely, too many singles are allowed to opponents. Johnson, as umpire, has done his work without fear, favour, or reproach.

There has been a number of set games. The second string and some of the smaller boys have had a few nets, but the junior evening games have lapsed this year owing to the epidemic and the difficulty of invigilation, but the boys who are too small to be Scouts have had an organised game on parade afternoons, and there has been much ordinary practice.

The Royalist and Foreigners' match was won by the former rather to everyone's surprise, while the House Shield was carried off by the Tudors who won all their matches in both XI.'s.

The field has improved, and with the aid of the motor mower the rough has been reduced. The pitches have responded to the little attention given them and have played well. At the beginning of the season some members of the eleven and fifth form undertook the weeding of the lower half of the square, and practically completed the work which has been going on for five years, the effort has already been repaid by the trueness of the wicket. The pavilion lawn has been cut and an attempt made to grow flowers inside the enclosure. We desire to thank all who have given assistance with games and ground work. In particular we would mention Grudgings, Booth i., and Burnside, who have prepared the 2nd net pitches throughout the term, and Gent i., and Morley for their sodding and weeding activities. Burdon i. and Stubbing have done many a good job of umpiring.

No Fives have been played but the Rugby court has been much used for Squash.

Bathing has been very popular and the baths have been visited twice a week by the School, and it is rumoured that some of the Day Boys have become amphibious. From their written preps. we fancy Sherlock Holmes would immediately be able to deduce webbed fingers or water on the brain.

Of Football it is early to speak. There will be a large number of positions to fill in the team, and we are already rejoiced to hear tentative enquiries, which suggest keen aspirants.

O.T.C. Notes.

The Annual Inspection and Camp make Summer term the culminating point of our activities. This year, the term was made fuller than ever by the visit, on May 6th, of H.R.H. Princess Victoria. The Corps had the great privilege of providing a guard of honour, and the majority of its members were enabled to be present; both officers and 40 other ranks being on parade. Previous to the event, several extra practice parades were held, and the consequent smartness was fully evidenced both by general remarks heard, and by a very complimentary letter received later from His Worship the Mayor.

On July 5th the Contingent was officially inspected by Lt.-Col. W. T. Bromfield, O.C. 2nd Batt. the Leicesters. A

highly satisfactory report has been received, and will be found elsewhere in these pages. It was a pity that the high standard of arms drill attained on the occasion of the Royal Visit was not maintained as this branch was the only one adversely criticised, both in his address to us and also in the report. The Inspecting Officer expressed himself particularly pleased with the musketry instruction of Cpls. Morley and Jones.

The result of the Certificate "A" examination held in March was received at the beginning of the term. Of the six candidates who entered, Home, Allen, Turner, Stokes, and Morley were successful, the last-named being placed first on the list with 424 marks out of a possible 600.

We were again disappointed over the trip to the Tournament at Olympia. Last year the General Strike intervened; this year the mumps.

The numbers of the Corps remain stationary at 51, sufficient recruits having joined to fill up the gaps caused by those who left at the end of last term. The following promotions have been made:—L/Cpls. Stokes, Turner and Morley to Cpls., Cadets Haddon and Lacey to L/Cpls.

The result of the "Country Life" Shooting Competition, held in March, was slightly better than that of last year, but not so good as it might easily have been. Out of 88 competing teams, we were placed 17th with a score of 690 out of 1040; by no means a disgraceful position, but one which, we hope, and have every reason to expect, will be considerably improved next year.

A fair amount of shooting on the Miniature Range has been done, and the number who have qualified as 1st and 2nd class shots is very satisfactory; the actual numbers will be published when all have fired the course. A little practice with ball ammunition on the 80 yards range has been obtained, with some excellent results. It is hoped that about 24 will be able to fire the full course.

The end of Summer Term always bring with it thoughts of camp. This year 85 Cadets had permission to attend, which is a record number, and incidentally our full complement. It is therefore all the more disappointing that, owing to the Mumps, ten of these will be prevented from going. Camp is to be held at Strensall, Yorkshire, from July 26th to August 8rd. We are hoping that the weather will improve between now and then, as we understand that on the previous

occasion when the Contingent attended this Camp, the surrounding country bore a striking resemblance to the world in the days of Noah. Granted fair weather, the twenty-five fortunate Cadets should spend a thoroughly enjoyable time, and be all the more ready to enjoy the subsequent weeks of their holiday.

The following report on the O.T.C. has been received from the War Office, together with a Certificate of Efficiency, as the result of the inspection on July 5th, by Lt.-Col. W. T. Bromfield, Commanding 2nd Battn. The Leicester Regt. :—

THE WAR OFFICE,
LONDON, S.W. 1,
11th July, 1927.

DRILL.—Handling of arms inclined to be slow. Platoon Drill good. Battle Drill well done. Words of command given loudly and well.

WEAPON TRAINING.—Cadet Non-Commissioned Officers instructed well. Sequence of orders good. The confidence of instructors (non-commissioned officers) was most noticeable, and the standard of instruction in weapon training is high.

MANCEUVRE.—Good. Supporting fire well understood. Fire control well done. One D.P. Lewis Gun was used, and quite satisfactorily.

DISCIPLINE.—Good. Saluting smart. Cadets appeared to be proud of themselves.

TURN-OUT.—Good.

ARMS AND EQUIPMENT.—In good condition.

GENERAL REMARKS.—A well run Contingent. If more than two hours a week could be devoted to their work it would be beneficial. The Commander does everything himself and is very keen. The Depot Suffolk Regiment do everything they can to help.

MAJOR,
Director of Staff Duties.

Scout Notes.

With the exception of the incidents noted below, it has been a case of business as usual with us this term. We have put in the usual work at Badge Tests and the following have qualified for the Second Class Badge: Kelsey, King iii., King iv., Lawrence. Practice at Morse signalling has been continued, and we have made a start with Semaphore. Drill and Scouting Games and, of course, the Inter-Patrol Competition have been continued. The Shield was won last time by the Woodpigeons; it is yet too early to say who are the winners this term.

We again had the popular Stretcher Race at the School Sports on the 12th May. The winning team was King ii., Lawrence ii., Elgar, and the runners-up were Long i., Parmenter, Fellgett.

A week previously the Troop formed part of the Guard of Honour for Princess Helena Victoria, and was complimented on its smart turn-out.

On the 5th July, the Troop was formally visited and inspected by Assistant District Commissioner Col. Hogge and District Scoutmaster Vickers; our visitors expressed themselves as being very satisfied with us and our work. In his official report Col. Hogge says: "A great pleasure to see so smart and well turned-out a Troop. The Scouts seem thoroughly keen and Scoutlike. I was glad to see that some regular drill is done as this develops the sense of leadership and discipline. The District Scoutmaster, who accompanied me on my visit, was much struck with the progress made in Morse Signalling and the S.M.'s novel musical Morse was most interesting. Work and games were entered into in the true Scout spirit, and the whole reflects much credit on the Scoutmaster and his Assistant and on Patrol Leaders and Seconds."

A photograph was taken of the Troop and the Visiting Officers which will form a memento of the occasion.

THE SCOUTER.

School Notes.

VALETT.—W. E. R. Bond, Head Boy, Senior Foreigner and Tudor House Prefect, Football Captain, Vth Form, Hockey and Cricket Colour, Sergeant O.T.C., Certificate "A," Tudor House Captain Cricket and Football. J. James, Tudor House Prefect, Football Colour, Hockey Half-Colours, House Captain of Hockey, IVth Form. N. D. Home, Hockey XI., Certificate "A," Vth Form. W. D. Orbell, Prep. Form.

SALVETE.—T. E. Pellow, F., IVth. R. H. Smith, ii., F., IVth. J. French, F., IIrd. R. G. Robison, F., IIIrd. O. H. Tilbrook, ii., R.Y., IIInd. H. M. Gray, F., Prep. G. H. Goffin, F., Prep.

Work Points for the term	127	118	121

We have been pleased to see the following Old Boys up:—J. Ashton, Crack, Lacey i., Plumridge, Thurlow, Abbott, Ely, G. Fulcher, L. Fulcher, Dowse, Brighton.

The Cricket Captain, E. H. W. Wright, has awarded the following honours, to date 16th July:—1st XI. Colours, A. Randell, D. Fulcher, T. B. F. Ruoff, A. W. Stacpoole; Half-Colours, C. F. Gould, R. I. Lawrence, J. N. Morley, H. K. Marshall.

B. F. Lee, the 2nd XI. Captain, has awarded 2nd XI. Colours to Turner, Jones i., Lawrence ii., and Johnson.

Lancaster House Colours have been awarded to Fulcher, Lawrence i., Lacey, Lee, Cooper i., by the House Cricket Captain, A. Randell.

Tudor House Colours have been awarded to Stacpoole, Ruoff, Marshall, Morley, Turner, Charles, Pellew, Gent i., Grudgings, Booth i., by the House Captain, F. R. Stokes.

Yorkist House Colours have been awarded to Johnson, Gould, Haddon, Brighton, Land, Grainger, and Tilbrook ii., by the House Captain, E. H. Wright.

We see from the daily paper that a page of an old Psalter painted at Bury was sold at Messrs. Sotheby's last week for £1,750. What a premium on good writing!

We are indebted to John Ashton for bringing up a cricket team, and also for his gallant efforts to get a return match despite the rain.

We congratulate M. L. Lacey on becoming Head Boy, F. R. Stokes on being appointed a School Prefect, and D. E. Turner and F. H. Jones on being appointed Tudor House Prefects.

The following books have been presented to the Fiction Library:—"The Badminton Boys," donor, Home; "Play up Greys," donor, Windsor; "Buckskin Pete," donor, Bell.

This term we welcome Miss Butcher as temporary Matron, the mumpers having withdrawn Matron to the San. to minister to their needs.

The Corps formed a guard of honour on the occasion of the visit of Princess Helena Victoria to Bury. The Scouts

also paraded and took part in the proceedings. The School raised £2 10s. for the funds of the Y.M.C.A., in aid of which the Princess came to Suffolk.

A cement path has been laid from the Royalists' path to the Headmaster's lawn. It adds a pleasing touch to the appearance of the front of the School, a seductive path leading through unfamiliar ways to the haven where we would be.

We congratulate Stokes and Smith on obtaining the Certificate and Bronze Medallion of the Royal Humane Society for proficiency in Life-Saving and Resuscitation of the apparently drowned.

Speech Day will be on Thursday, October 18th. A hearty welcome is herewith extended to all our readers.

Old Boys' Notes.

Congratulations to C. F. Steed on passing the Law Final. We wish him every success in the future.

Many thanks to W. A. Crack for all the good work he is doing for the O.B.A.

As a result of a recruiting effort on behalf of the local "Terriers" the following Old Boys have "joined up," W. A. Crack, K. R. B. Abbott, W. Allen, G. D. Fulcher, L. T. Fulcher, H. H. Thurlow. These Old Boys form part of the Battery Staff of the 411th (Suffolk Yeo.), Field Battery, R.A. (T.A.). They have recently been to camp, an account of which appears on another page. At this camp, I believe, the Staff was complimented on its efficiency.

Old Burians have always supported the "Terriers," and the old 5th Battn. Suffolk Regt., always contained a large number of Old Boys, especially during the Great War.

Old Burians will be interested to hear of an amusing meeting held by E. F. Wise on the Bury Butter Market recently. The meeting was on behalf of the Labour (or pro-Bolshevik) Party. A section of the audience objected to what Wise was saying about the Government and "rushed the platform." Wise and the other occupant of the platform jumped clear and, with police assistance, Wise reached his mother's house in safety. I believe he has not held a meeting in Bury since.

We congratulate C. M. R. Peacock on passing his Law Final exam., held last March. He obtained First Class Honours, and in order of merit was third on the list, and Daniel Reardon Prizeman. He served his articles with Messrs. Gudgeons, Peacock and Prentice, of Stowmarket. It is rather remarkable that his brother articulated-clerk, J. M. Prentice, won first-class honours also and was 2nd on the list last year. We believe that Peacock has obtained an appointment in Yorkshire.

We are glad to hear from M. A. Mumford, who is now in Fiji, and who wants to regain touch with the O.B.'s of his time, 1921—1923. His address is, the Colonial Sugar Refining Co., Lautoka Mill, Fiji Isles. We feel sure many O.B.'s will find opportunity to write to him in his isolation. In December, 1923, he went to Australia and after a stay in Sydney proceeded to Hawkesbury Agricultural College and passed the Diploma Exam. at the end of a two years' course. After a little experience of Australian Farm life, he went to Fiji under the ægis of the Sugar Refining Co., which owns about half the islands, besides tracts in Queensland, in whose employ he has held various posts and is doing well.

R. A. R. Robinson writes to us from Oxford. He has just taken the Certificate Exam. and is going into the Armstrong Siddeley Works in September. His many friends will join us in wishing him the best of luck in both ventures.

O.B.'s will be interested to hear that T. Fergusson is training as an artist, his address is, "Glenluce," Sidney Place, Bath, and Hugh is farming.

We believe that Dowse has recently passed an examination of which we hope to hear more anon, and are informed that he is likely to go to Oxfordshire in the near future.

John Ashton played in the Felixstowe May Tennis Tournament and extended Crole-Rees. His picture appears in the local paper characteristically in action, amid a galaxy of photos of the fair sex in graceful tennis attitudes, not, we think, by way of contrast.

Of his play the press says: "John Ashton and Miss Bond accomplished well in running Eames and Mrs. Beamish to a long first set, the Burian figuring particularly well in his volleying activity."

Crole-Rees was severely exerted at the hands of the Suffolk County player, J. N. B. Ashton. The Burian has a habit of revealing his best self against the better man.

Here he fought every game, frequently running to deuce. Ashton has certainly speeded up his service, and, against the hard hitting of the International, returned with hearty confidence once he was on the spot; taking chances and oft-times pulling out brilliant winners. His volleying was not without profit and his characteristic facility of retrieving the apparently lost, naturally came well into the picture. Although Crole-Rees was the winner Ashton did not permit him to experiment.

Calendar.

APRIL.

Thursday, 28th ... First Session.

MAY.

Thursday, 12th ... The Sports.
Saturday, 21st ... Tudors v. Yorkists.
Saturday, 28th ... Brewery (H).

JUNE.

Thursday, 2nd ... Tudors v. Lancastrians.
Saturday, 4th ... Whitsun Exeat.
