

The Burian.

December, 1928.

VOL. XVIII., No. 5.

Editorial.

THIS has been a progressive term. After the initial marking time until the new forms settled into line, a steady pace was set. The Speech Day march past was performed with ordered ranks and then a quicker step than the slow ceremonial stride was attempted, much to the delight of Corporal Click of the Top Form, but rather to the disgust of Cadet Clack of the Remove, who as a raw recruit was fond of parading with his mouth open, until one day, it is said, he swallowed a peppery word of command.

The other forms have been stepping out in the right direction, and unhindered by their old enemies the mumps and measles should have got across the debatable land and be able to muster at full strength for the Battle of Wits at the end of the term, and so give a good account of themselves against their chivalrous foes, the Examiners.

Hard work makes for good play, especially in the football term when the lower extremities are eager to carry on as soon as the superior end has done its bit. The weather has been kind, and games have been pleasant and well contested.

All Burians, having freely indulged in the pastime of Prep., will readily recall its pleasures. First there is Latin which begins with *Mensa*, a table, and too often ends with a scholarship instead of leading on to true Scholarship. Then there is Mathematics, usually called "Mass" doubtless because it bulks so large. It also begins with a table, the nought times one, which only the very clever can learn, and goes on through infinite progressions to the VIth Form and the Fourth Dimension unless you get discouraged in the early stages by letting the master continually beat you at his favourite game of noughts and crosses. But do you know the secret delights of a subject which I will call Joy-graphy? I was introduced to it on Thursday last. It is a question and answer game. What would you have replied if a serious-faced small boy had asked you "Please sir, where is the country of Do?" I replied gaily, "Oh, in the Land of Work, a despised domain of the British Empire;" then furtively looking down to see if my leg was being pulled, I encountered a pair of still-vexed

eyes and so enjoyed where their owner had discovered the delectable country. Hereupon an atlas was produced, in the index whereof was written:—

Page 28 India (political)

Page 24 Do. (physical)

So you see Joy-graphy is real adventure, the Science of discovering new places and finding out where they are. Well I'm glad my guess was right and the delightful Land of Do was a part of the British Empire, but I think it is really nearer home than the atlas shows, so near indeed that we might help to colonise it ourselves, if, instead of slumbering at the shrine of St. Edmund we arose from our kingly cradle in royal might, inspired to do noble deeds.

In conclusion we most heartily wish our readers a very happy Christmas and a successful New Year. May both prove even more delightful in reality than they seem in anticipation. As to the holidays, may we remind all who are about to enter into the pleasant enjoyment of them or are otherwise interested that the holiday requested by Dr. Cyril Norwood on Speech Day has been granted, and has been added to the Christmas ones, thus making them extend for 4 weeks and 1 day, so that work at School will begin in the new year on Wednesday, January 16th.

Speech Day.

[With acknowledgments to the *Bury Papers*].

Dr. Cyril Norwood, the Headmaster of Harrow, presented the prizes and delivered a fine address on the objects of education at the Speech Day proceedings which were held at the Athenæum on October 25th.

The Comptroller, the Archdeacon of Sudbury (the Ven. W. T. Farmiloe) presided, and supporting him on the platform were the Deputy-Comptroller (Mr. E. L. D. Lake), Canon Hill, Mr. J. Ridley Hooper, Mr. A. Oliver Lusher, Canon S. W. Goldsmith, and Col. G. H. Long (Governors), Mr. S. J. M. Sampson (Clerk to the Governors), the Rev. G. H. Lenox-Conyngham, and the Headmaster of the School (Col. J. M. Wadmore).

There was a large attendance of visitors, the following having accepted invitations:—Miss Barnardiston, Mr. and

Mrs. Boccock, the Misses Bullen, Mrs. Bluett, Mrs. Boys, Mr. and Mrs. Bird, Mr. and Mrs. C. W. Baskett, Mr. and Mrs. Booth, the Rev. and Mrs. Cobbold, Mr. and Mrs. Thurlow Champness, Mrs. Cooper, Mr. and Mrs. Chrystal, Mrs. Caie, Mr. and Mrs. Arnold Crack, Mr. and Mrs. Calton, Mr. and Mrs. French, Mrs. Fulcher, Miss A. Fry, Canon and Mrs. Goldsmith, Mr. and Mrs. Salmon Gough, Mr. and Mrs. Grainger, Mr. and Mrs. Gardner, Mr. and Mrs. Gent, Mrs. Donald Hunter, Mr. and Mrs. Ridley Hooper, Mrs. Halliwell, Mr. and Mrs. Haddon, the Misses Hinnell, the Rev. and Mrs. Hall, Mr. and Mrs. Haywood, Mr. and Mrs. Higgins, the Rev. Canon Hill, Mr. and Mrs. Hallam, Mr. H. R. Hall, Mr. and Mrs. Jamblin, Mr. and Mrs. Johnson, the Rev. and Mrs. Kilner, Dr. C. S. Kilner, Mr. and Mrs. King, Mr. and Mrs. C. W. A. King, Mrs. Long, Miss Ledward, Mrs. and Miss Land, Mr. and Mrs. Lloyd, Mr. and Mrs. Oliver Lusher, Mr. and Mrs. Lee, Mr. and Mrs. Lacey, Mr. and Mrs. Mitchell, Mr. and Mrs. Morley, Mr. and Mrs. McMaster, Mr. and Mrs. Nice, Mr. and Mrs. S. M. Oliver, Mr. and Mrs. B. E. Oliver, Mr. and Miss Ord, Mr. Pattison, Mrs. Pamphilon, Mr. and Mrs. Porter, Mrs. Pughe, Mr. and Mrs. Pike, Mr. Peppiatt, Mr. and Mrs. Rudd, Mr. and Mrs. Sampson, the Rev. and Mrs. F. E. Smith, Capt. and Mrs. Sparke, Mr. and Mrs. Street, the Rev. and Mrs. Sandford, Mr. and Mrs. Secker, Mr. and Mrs. Stubbing, Mr. and Mrs. Sarginson, Mrs. Scarlato, Mr. and Mrs. Taylor, Mr. and Mrs. E. A. Taylor, Miss Underwood, Mr. and Mrs. Wright, Mr. and Mrs. J. W. Wright, and Mr. and Mrs. Wood.

The proceedings opened with the singing of the chorale, "Praise," by the boys.

The Comptroller, in the course of his address, said it was a great pleasure to be able to state that the success of 1927 had been well maintained during the present year. (Hear, hear.) The School was full and he congratulated the Headmaster and Mrs. Wadmore that the number of boarders remained at high-water mark.

The Headmaster, in his annual report, said that steady progress had been maintained during the past twelve months, both in numbers and efficiency. The boarding house, in particular, had remained full to overflowing.

The efficiency of the School was clearly shown from the report of the full inspection carried out by the Board of Education in March, 1928; the results of the Cambridge

Local School Certificate Examination, held in July, 1928, 8 candidates successful, 2 gained honours, 2 more, making 4 in all, exempted London Matriculation; and the striking success of a pupil (H. K. F. Marshall) in the examination for entry of Aircraft Apprentices by Limited Competition, held in June, 1928, who passed second in order of merit out of 558 successful candidates from all over the Kingdom.

In games, the hockey result, played 8, won 5, lost 3, and the cricket result, played 8, won 4, drew 1, lost 4, were creditable, especially as most of the matches were against men's teams.

The work in the Officers' Training Corps culminated in the best annual inspection report received in recent years. During the year 8 cadets passed the examination for certificate "A"—Cpls. Bacon, Johnson, and Lacey.

The Headmaster of Harrow School then presented the prizes to the following:—

Forms VI. and V. (Cambridge Local School Certificate Examination).—1st by examination, honours, 1st in history, mathematics, science, H. K. F. Marshall; 2nd by examination, honours, 1st in English, chemistry, J. R. M. Wright; 1st in Latin, B. F. Lee; Comptroller's prize for modern history, J. R. M. Wright; prize presented by Old Buriens' Association, English, J. R. M. Wright; special prize, presented by Old Buriens' Association, H. K. F. Marshall.

Form IV.—1st by examination, 1st in English, history, mathematics and science, E. G. Peppiatt; 2nd by examination, 1st in Latin and geography, B. C. King; 1st in French, J. B. Hornby.

Form III.—1st by examination, 1st in English, history, chemistry, G. D. Booth; 2nd by examination, 1st in Latin and mathematics, D. A. Porter.

Form II.—1st by examination, 1st in history, mathematics, physics, S. E. Burt; 2nd by examination, 1st in English and Latin, K. A. Wyndham-Kaye; 1st in French, G. H. King; 1st in geography, P. W. K. Mitchell.

Form I.—1st by examination, 1st in French and geography, F. W. Orttwell; 2nd by examination, 1st in Divinity, English, history, D. E. Jamblin.

Preparatory Form.—1st by examination, E. P. Bocock.

Cricket bat, presented by the Deputy Comptroller (Mr. E. L. D. Lake) for best batting average, D. Fulcher.

Challenge Cup, presented by the Lord Lieutenant, for the best individual shot, D. A. S. Grainger.

Addressing the boys subsequently, the Doctor said it was not the first time that he had attended a prize-giving of the Bury St. Edmund's Grammar School. It was a long time ago—he thought somewhere in the '90's—that he paid that other visit. He knew Bury St. Edmund's fairly well, and whenever he came to the town he felt the spirit of the past upon it, and sometimes so great was the spirit of the past that it seemed more real than the present.

"Your school," he added, "is called King Edward VIth School; but it is a good deal older than that. I believe there was a school identifiable with this school existing before the time of King Canute."

Bury St. Edmund's, the Doctor proceeded, was the first school in this country to introduce a system of free places. He believed it was in the year 1198 when the revenue of half a rectory was assigned to the school on condition that the schoolmaster taught 40 boys for nothing! Secondly, no rival schools were allowed to survive. If a schoolmaster came to the town to set up school, he was instantly ex-communicated by the Archdeacon!

That meant that they had individuality. Their's was a school of a special type and character. This was a day in which people were made as alike as possible. That wholly was not a good thing. He asked them to value individuality in themselves and their school.

The end of education was the most true individuality. Every single person had his or her special contribution to make to the sum total, he did not care how humble the position. As Polonius said in Shakespeare's "Hamlet," "To thine own self be true, and it shall follow as the night the day thou canst not then be false to any man." Then everybody must have a self which it was worth while being true to.

"Don't set up a more or less cardboard front of respectability to the world and carry on your own occupations behind it," observed Dr. Norwood, warning his hearers against living carelessly and developing a kind of self that was all

secondhand—of secondhand opinions from newspapers, market places and cinemas—rather than a personality that was one's own.

Secondly, he said, value a general education. Lack of education in nine cases out of ten meant permanent subordination. And even in the tenth case where a man got through because of his natural ability he would be handicapped the whole of his life if he had not sufficient education. One had certain faculties—of hand, eye and voice. Education should be devoted to the development, to some extent, of one's hands, which were very wonderful things; to the use of eyes for observation and the perception of beauty and the foundation of science and art; and to the use of voices, for it was a great asset to men and women to be able to speak, and through the voice, get some knowledge of music. Those things, he believed, were the general basis of education, and beyond that one wanted to know something of the literature of one's own country, of its history and how things had come to be. One should also know at any rate one foreign language, in order to understand that this was not the only nation in the world, and, as well, something of mathematics and science. "Art and literature will show you the beauty and meaning of life; mathematics and science will show you the structure of life."

England had a democracy, an unlimited democracy, in which, theoretically, everyone was equal to everyone else. They were dominated by the newspaper, the magazine, the book, and public speech, and the man or woman who was unable to express his or her own ideas was limited in comparison with the next. Everything depended ultimately on discussion, the power to be able to think clearly and express one's thoughts clearly, whether in the affairs of the local tennis club or of the House of Commons.

Another thing education would give was right sense of values, and they realised, if their education was thorough, that it was not money or position that counted most towards happiness, but that other things came in front. They would notice that the more money, power and influence that came to them, the less there would be for anybody else, but with the things which education led to—a sense of goodness, a sense of what was beautiful and what was true—the more one had the more there would be for everybody else.

If you judge the world on what you can get out of it, by exploiting the world for yourself, you will find that it will disappoint you very much; but if you regard it by the amount

you can put into it, by the doing of little duties, by the creating of some little thing or the doing of some little good, I am sure you will find that this world is a satisfactory place, and the only regret you will have on leaving it, is that you have not taken greater advantage of such opportunities than you have.

In conclusion, Dr. Norwood gave some practical advice to the scholars, and said that the more they put into their School the more they would get out of it. (Loud applause.)

Proposing a vote of thanks to Dr. Norwood, the Deputy Comptroller (Mr. E. L. D. Lake) said that he thought that every boy had been enthralled by the inspiring address to which they had just listened. (Applause.)

After offering his warm congratulations to the Headmaster on the School's steady progress, he urged parents to keep their boys at School as long as they possibly could. "I do not believe that the boy of 16 is of very much use to the commercial world to-day," he said, "but I believe he would be of far greater use if he remained at school until he had attained the age of 18. I practice what I preach, and there is nothing which will induce me to accept a pupil in my business until he has reached the age of 18," said Mr. Lake.

Canon Hill seconded.

Hearty cheers were given by the scholars for Dr. Norwood (who requested a holiday for the School), the Governors, the Headmaster and Mrs. Wadmore, and the visitors.

Thanks were accorded the Chairman, on the motion of Ald. Lusher, seconded by Canon Goldsmith.

The National Anthem concluded the proceedings, and tea was subsequently served.

"The Bury St. Edmund's Grammar School List."

As most Burians, whether young or "old," know, the School possesses a really rather wonderful record in the shape of Volume XIII of the Suffolk Green Book series bearing the above title. It is a list, giving names and brief biographical notices, of all boys known to have been at the School from its

foundation in 1550 to the year 1900; it is also a monument of patient and critical compilation.

At the London Old Burians' Dinner last February it was, informally, resolved to endeavour to bring this list up to date for the first quarter of the present century. This suggestion was ratified at the Old Burians' Annual Meeting last July, when a Committee was constituted, and the preliminary steps put in hand; that such satisfactory progress has already been made is chiefly due to the exertions of two Old Burians, C. W. Turner and G. V. R. Richdale, the former, in addition to his personal efforts, lending the aid of his office Staff; the latter undertaking the duties of Honorary Secretary to the Committee. While the School Register gives a complete list of the names of all boys who entered the School from 1900 to 1925, and while little difficulty is anticipated in getting into touch with those who, though not members of the Old Burians' Association, have not long left school, it was realised there might be difficulty in doing so in a good many other cases. To meet this a circular letter has been printed, the School List has been copied out and divided into sections, and the undermentioned have volunteered to endeavour to get the letter into the hands of, and to elicit replies from, Old Burians who entered the School during sub-divisions of the last twenty-five year period:

1900—1905, A. B. Ord, 83, Whiting Street, Bury St. Edmund's.

1906—1910, C. J. Hinnell, 62, Garland Street, Bury St. Edmund's.

1911—1915, G. J. Hinnell, 62, Garland Street, Bury St. Edmund's.

1916—1920, H. A. Conlan, 40, West Road, Bury St. Edmund's.

1921—1923, R. B. Manley, The School Hall, Bury St. Edmund's.

1923—1925, The Headmaster, The School Hall, Bury St. Edmund's.

The Hon. Secretary, besides his general duties, has undertaken the work in connection with O.B.'s who entered the School between 1900 and 1925, and who have since deceased; his address is, "Courtleroy," Benhill Wood Road, Sutton, Surrey.

Brighter London Letters.

Since I seem to have become, in various successive editions of the "Burian," an advocate of the Brighter Everything movement, I suppose I must not leave my task half-done, but must carry it through to a finish, successful or otherwise. I believe the whole thing originated in a Brighton movement. Not that anyone wishes to make Brighton brighter. Despite the Black Rock it has always seemed to me to be an exceedingly bright place. There is electric brightness everywhere, on the pier, and the front, and in the town itself. Thousands of lights. And there is an aquarium, and an almost incredibly uncomfortable railway to take you from one bright spot to another. But, and this is what I am really getting at, the cry for a Brighter Brighton went up, despite it all. Personally I don't like Brighton, and I suppose lots of other people don't like it either. No doubt the Town Councillors became alarmed at this, and said "We must make Brighton brighter! We need a slogan!" And then someone thought of "Brighter Brighton." Now Brighter Brighton sounds all very well, but "Brighter London Letters" does not. As slogans go it is a very bad one. I am sure no Town Councillor would ever think of a slogan like that. So first of all I must have a fresh war-cry, so to speak. I might say "Longer London Letters," only that is the last thing we want, so that it is not particularly appropriate. Not that that matters with a slogan of course. Still people might take it seriously. Similarly "Lighter London Letters" is unsatisfactory. It might mean so many things. Nor is "Lesser London Letters" any better. It merely sounds like something to do with the "Post Office Guide" and the Inner Circle. On the whole I think we will pass by this matter of a suitable slogan, and allow the original one to stand. After all it is more or less what I mean. Letters which are brighter in the sense of being more interesting, more original.

But I shall have to be very careful as to what I say. Much tact is needed. For a long time now Charlie Hinnell has written all our London Letters, and if I say anything rude about them, he may refuse to write any more. He might even feel hurt, and that would be very awkward indeed for me. It simply doesn't do to offend people who work in the same office as oneself. There are so many ways of retaliating. He might ring up the Chief Cashier, or Mr. Montague Norman, and when asked who it was speaking, give my name, and then proceed to use abusive language. And I should get all the blame. No. I really must be very careful. Still I do think

these London Letters need to be a little more original somehow. Of course that last one about the German Measle was, but will he maintain the standard? I know its jolly good of him to write one at all, but I am sure he will not mind a little friendly criticism. I think perhaps I had better stand him a coffee, and then break it to him gently. He can't very well take offence then, when I've just paid 8d. for him.

But what I mean is this: there's such a lot to say in a London Letter. When I think of all there is that one could write about, there seems so much that if I once began myself, I think I should never finish. The subject is immense, boundless. It provides one with so much matter of interest, such scope for originality, so much . . . Hello! What's that? The postman? And a letter for me. From the Editor of the *Burian*? . . . "If you can produce me a London Letter within a week, I shall be very much obliged . . ." If I can produce a London Letter! Within a week! I mean, what's the matter with Charlie Hinnell? Surely he hasn't heard already, and refused on that account? Not that I mind writing one. The trouble is what to say. Of course there's an awful lot one could say. That's the difficulty. *Embarras de richesses*. How shall I get it all in the space allotted? Well, I mean . . . as a matter of fact, I can't think of anything much at the moment. Curious how difficult it is to remember anything just when you want to. Still there must be a lot of things I could say. Should be anyhow . . . I don't know though. My mind's an absolute blank in this respect. Can it be that there really isn't anything much to say? . . . Oh well, I shall give it up. I'll write to the Editor and say:

"Dear Sir,

Much as I should have enjoyed contributing to your excellent magazine, I regret to say that, owing to pressure of work, I am unable to comply with your request.

Yours sincerely,

G.V.R."

Football.

BURY SCHOOL v. MR. SHEARING'S XI.

The 1925 and 1926 School Football Captain again assembled a team to give the School their first match. A pleasant game resulted, the School running out winners by 8 goals to 1. Shearing himself, who was playing for

the Town 2nd XI., of which he is captain, came up to see the commencement of the match. Had he been able to lead his team the goals might have been more evenly distributed.

BURY SCHOOL v. THE EAST ANGLIAN SCHOOL.

This home fixture was played on the 6th of October, and although the weather was uncomfortably hot, the game was well contested all through and resulted in the second win of the season for the School.

Both sides attacked strongly in turn, and play went up and down the field. At half-time the score stood in favour of the School, but immediately after play was resumed the East Anglians attacked more strongly than ever, and increased their score by two goals. The last ten minutes of the game were easily the most strenuous, and the School had great difficulty in preventing their opponents from levelling up the score. But when the final whistle went the score remained 5—4 in favour of the School.

G.H.F.S.

BURY SCHOOL v. COUNTY SCHOOL.

The visitors won the toss and elected to kick downhill and against the wind.

In the first stages of the game the County combination dazzled the home team, and five minutes from the commencement the visitors obtained a well earned goal. The home team played up vigorously then and soon equalised, only for the visitors to take the lead once again.

Play improved in the second half but there was no further score until a quarter-of-an-hour from the finish when the Burians scored twice in succession. A great shot brought the visitors equal once more only half-a-minute before time.

The game was fast throughout with both sides trying their hardest. Team:— C.C.

Bury School.—Charles, goal; Hall, Smith, backs; Land, Fulcher, Bird, halves; Husk, Booth, Lee, King, French, forwards.

BURY SCHOOL v. CHADACRE.

The School won the toss and decided to play downhill. Fulcher opened the scoring in the first five minutes with a high long shot. Shortly after Mr. Elliott dribbled through and scored. Play during the first half was decidedly in the School's favour, the half-time score being 5—0.

With the School playing uphill Chadacre were more successful and near the end succeeded in scoring, the School having also added three more goals in the second half. Final score, 8—1. B.F.L.

BURY SCHOOL v. THETFORD SCHOOL.

This match was played on the home ground. The afternoon was cold, accompanied by slight rain. The School won the toss and played uphill.

Thetford were the first to score, they scored two goals in close succession before Lee scored the School's first goal. The School's defence worked well, while the forwards found it difficult to get through the opposing backs.

At half time the score was 3—1, Thetford leading.

During the second half the School worked better, raising the score by 2 goals, both scored by Husk. Meanwhile Thetford added 2 to their total, thus winning by 5 to 3.

A.E.B.

BURY SCHOOL v. KING'S SCHOOL, ELY.

Played at Ely on November 22nd. In the first half the School faced a strong wind and had a wet and slippery end to defend. After a quarter-of-an-hour Ely asserted themselves and scored 9 goals in quick succession.

After the interval, assisted by the wind, the School regained their form and scored thrice before Ely replied. One more goal was scored by the visitors just before time, making the final score 10—4 contra. Lee and Charles played well.

It may interest O.B.'s to know that Bury is now the only School that King's School, Ely, play. D.F.

ROYALISTS v. FOREIGNERS.

The 29th of November, a cold bleak day saw this warmly contested match. The Royalists, arrayed in white, kicked off, and Tilbrook ii. after passing three players came within an ace of scoring. Relief came just in time and the ball was rushed to the other end of the field where Husk with a good shot scored. Within five minutes Fulcher scored again for the Foreigners who kept pressing and for a time it looked as if the match would be a runaway one for them. However, the Day-boys' back division got together and very fast and even play resulted, first one goal being visited and then the other. After thirty minutes' play Lee by a good effort scored for the Royalists.

The rest of the game was fought out in true gladiatorial style, but neither side succeeded in increasing the score, though Allen was often called upon to save, and twice Bird, coming across the goal from his wing, deflected shots behind the goal-line that seemed certain of finding the net. Every player showed his best form and played with untiring energy.

The Foreigners are to be congratulated on winning a very hard fought match, and the Royalists lost gallantly and have nothing wherewith to reproach themselves. Teams:—

Foreigners.—Urwin, goal; Charles, Hall, backs; Shoberl, Fulcher (capt.), Bird, halves; Husk, Roberts, Booth i., Hornby, Pellew, forwards.

Royalists.—Allen, goal; Smith i., Pike, backs; Burdon, Tilbrook i., Land, halves; Grainger, King ii., Lee, King i., Tilbrook ii., forwards.

Referee: Mr. G. Fulcher.

2nd XI. ROYALISTS v. FOREIGNERS.

Having won the toss, the Royalists decided to play uphill with the wind. The Foreigners held the attack for ten minutes, but the Royalists broke through and scored through Felgett. Before half-time the Royalists scored again, leaving the Foreigners two goals in arrears at half-time.

When play was resumed the Foreigners took advantage of the wind and Nice and Hornby scored in quick succession.

The Royalists again broke through and added another goal to their total, Kelsey scoring. The Foreigners got together and Grantham and Windsor added two goals, and so won the match and gained the cup which was so kindly presented by Mr. Grudgings. Thus ending a very exciting and enjoyable game, the final scores being 4—3 in favour of the Foreigners. Teams :—
J.P.A.G.

Foreigners.—Osborn, goal; Mitchell i., Bell, backs; Burt, Gent (capt.), Pattison, halves; Nice, Mitchell ii., Hornby, Grantham, Windsor, forwards.

Royalists.—Sandford i., goal; Stubbing (capt.), Higgins, backs; Rudd, Sanders, Baskett ii., halves, Kelsey, Tilbrook iii., Lomax, Fellgett, Champness, forwards.

BURY SCHOOL v. THETFORD SCHOOL.

The winning of this match, which was played away on Saturday, 1st December, came as an agreeable conclusion to the School matches.

The School won the toss and decided to play against what little wind there was.

We started well by scoring twice in the first fifteen minutes' play without reply from the opposing team, who it will be remembered, beat us in the preceding match. Soon afterwards, however, the opposing outside-left scored, and at half-time the score stood 2—2, both our goals being scored by Fulcher.

On resuming play the School added another goal, but our score was equalised soon afterwards. Thetford then scored again by a penalty in which Charles experienced hard luck in not saving.

We then scored through a swift shot from Pellew, which the goal-keeper failed to hold and the ball was tipped in by Booth.

After some fierce rushes by the School forwards, who were well fed by Bird, another goal was scored by Fulcher about ten minutes before time.

Thus a very interesting match ended in a victory for the School, the goals being scored by Fulcher (4) and Booth.
Team :—
R.H.S.

Bury School.—Charles, goal; Hall, Smith i., backs; Tilbrook, Bird, Land, halves; Pellew, King, Fulcher, Booth, Husk, forwards.

CHARACTERS OF THE ELEVEN.

†*D. FULCHER. (Captain, centre-half). An inspiring captain and very hard-working player, strong in attack, sound in defence, with a sense for position, is sometimes over vigorous and must avoid handling.

*B. F. LEE (centre-forward). Has filled a difficult position and led the forward line well. Has a strong kick and is a good shot. Must learn to keep the ball low.

*C. W. CHARLES (goal). Saves brilliantly and clears well but must not lose confidence after several goals have been scored.

*A. E. BIRD (right-half). Has a very strong kick, marks his man well, but must refrain from kicking the ball out of play and try to use his head more.

*G. H. F. SMITH (left-back). Tackles well and clears hard, must feed his wing more and keep more between the play and his own goal.

†G. D. BOOTH (inside-right). Handicapped by size. Is a determined player but rather slow, combines well with his outside, shooting poor.

†J. B. HALL (right-back). Tackles well but should clear harder, must get back quicker and learn to combine with the left-back more.

†H. R. LAND (left-half). Sticks to his man and heads well, must feed his wing more and kick low and hard.

†B. G. KING (inside-left). A small but plucky and skilful player, frequently makes good openings, holds the ball too long in mid-field, needs to develop a stronger kick.

T. E. PELLEW (outside-right). Tries hard, breaks away well but frequently fails to get in his centre. Takes corners well.

†M. C. C. HUSK (outside-left). Hard working but erratic, has a good turn of speed, is inclined to pass back in mid-field and kick over the goal line when centring from near the corner flag.

Also played :—

C. J. TILBROOK. A promising half. With more experience should do well, has considerable initiative and solidity.

J. FRENCH (outside-left). Has ability but is too casual to do himself justice.

* 1st XI. Colours, 1928. † Half-Colours, 1928.

† 1st XI. Colours, 1927.

SECOND ELEVEN CHARACTERS.

*C. J. TILBROOK (Captain, centre-half). Has been a keen and capable captain, and is a strong and enterprising player.

*T. W. PIKE (right-back). A steady and reliable back. Kicks strongly and tackles well, but miskicks occasionally and starts slowly.

*J. FRENCH (outside-left). Very useful both on the wing and at centre-half. Helps his forwards well but leaves his man unmarked.

*F. P. SHOBERL (right-half). A steady player who helps both attack and defence well. Passes well, but rarely exerts himself.

*P. ALLEN (goal). Has played consistently well throughout the season. Holds the ball too long, and takes weak shots too easily.

*H. Tilbrook ii. (centre-forward). Passes neatly and is a good shot. Somewhat lacking in speed but not in dash, is inclined to get out of place. Uses his head effectively.

*G. H. KING ii. (inside-right). A keen and skilful player, always on the ball, rather handicapped by size. Should use his wing more often.

†H. I. ROBERTS (inside-left). A forward who rather lacks in speed and size. Passes well to the wing. Is rather weak in front of goal.

†H. SANDERS (left-back). Kicks weakly but his tackling is good. Plays well when on the wing.

G. H. BURDON (left-half). Improved as the season advanced. But is still slow in getting back and following up. Clears well.

D. A. S. GRAINGER (outside-right). A fast and useful wing, inclined to over-run the ball. Takes good corners.

Also played :—

E. A. KELSEY (outside-right). Shows improved form, gets away with the ball, but often loses it.

P. T. CHAMPNESS (outside-left). A fast winger, but is far too gentle to be effective.

R. R. HIGGINS (right-half). An energetic player, but rather awkward; must get to the pitch of the ball.

L. LOMAX (inside-right). A small player, whose footwork is good; lacking speed and weight is at a disadvantage.

G. T. K. NICE (outside-right). Has played well, makes ground and shoots well; is rather clumsy.

* 2nd XI. Colours. † 2nd XI. Half-Colours.

Games Review and Prospect.

The Football season, which began and ended in winning vein, has not proved to be the record one of our hopes. The team throughout have played very gamely but the forward line has been weak. With the exception of Lee, who has not always been able to turn out, its members are small and lack experience and initiative. The halves have played a very sound game and are one of the best lines the School has ever possessed. The backs have played well on occasion, but have never established a perfect understanding, and have been inclined to wander to the wing, to get too near the goal line,

and to play level in mid-field, hence the defence has been too often penetrated and the forwards have been unable to make up the tally of goals on every occasion, despite the heroic efforts of the halves. The goal-keeper has filled his responsible post brilliantly.

The Second Eleven have given a good account of themselves. Tilbrook i. ably seconded by Pike has been the mainstay of the team. Allen in goal has improved wonderfully, the three inside-forwards have played with dash but are still inclined to bunch. The wing-halves need to mark better, and work harder both in attack and defence. Although a variety of wings has been tried, the flight of the ball has been erratic when depending on them.

The teams have been fortunate in having at their disposal the services of Mr. Elliott who adds the dash of a rugger man to the skill of a soccer centre. They were also favoured by getting the assistance of an Oxford soccer Blue in the person of Mr. Benton Evans, to coach and play with them for a well remembered fortnight. We should like to thank Mr. Bluett for his aid in coaching and refereeing and regret that doctor's orders have prevented him from playing. To Messrs. Allen, Fulcher, Randell, and Thurlow, who have so kindly refereed matches, and to those Old Boys who have turned out for games we offer our heartiest thanks. No account of the season would be complete without mention of our most devoted supporter the Rev. F. E. Smith. We greatly regret that this season is likely to be the last that the music of his voice on the touchline will cheer the XI's on to victory. Our obligation to Mr. Shearing increases each year. This season, although captaining a Town Team, he collected another XI, chiefly of Old Boys, to do battle with the School for their first fixture, despite the fact that he had just returned from holiday.

The Royalist's and Foreigner's match was exceedingly well contested, the Foreigners winning by 2-1. The House matches provided many thrills. The Tudor House proved the strongest, winning all its matches.

A Second XI. Royalists' and Foreigners' match caused much excitement. The cup, presented by Mr. Grudgings, was awarded for the first time on the result. The Foreigners, winning by 4-3, gained the coveted trophy.

Looking forward to hockey, it seems likely that six of last year's XI. will be available in the coming season. The

term will be a fairly long one and a corresponding fixture list has been arranged. We would remind all boys who are likely to be in the three hockey sets, to look out, put in order, and bring back with them their hockey sticks. No sportsman could "forget."

Fives has been revived under the genial championing of Mr. Morley, and the courts are generally crowded with the younger boys; while their seniors frequently receive invitation and occasionally find opportunity to enjoy a game.

O.T.C. Notes.

We regret to announce the departure of our O.C., Lieutenant Darcy, to take up an appointment at Bath Secondary School. All members of the Corps will join in wishing him every success.

Mr. Kennedy has now taken over the command, with Mr. Elliott as Second in Command.

Unfortunately last Summer we were obliged to omit probably the most important, undoubtedly the most pleasant, section of our O.T.C. work, namely, a week at camp. Let us hope that this year we shall be immune from such things as German measles.

During this term the Certificate "A" examinations have been held. Three candidates were successful in the Practical Examination—Lee, Smith i., Burdon. Their results in the Theoretical Examination are not yet to hand.

It is pleasing to note that Major Gadd and his staff, on the occasion of their visit, expressed great satisfaction with the work of the Corps.

The following promotions have been made:

Cpl. Lee to Senior Sergeant.

Cpl. Smith i. to Sergeant.

L/Cpl. Burdon to Corporal.

To those new-comers within our ranks we extend a hearty welcome, and hope that ere long they will prove themselves as efficient as their more seasoned comrades.

Scout Notes.

This term, as is usual at the beginning of the School year, has been a very busy one.

We have much pleasure in welcoming as A.S.M., Mr. Morley, who has shown great keenness and has done valuable work in connection with the Tenderfoot class.

There has been a record entry into the Troop and we now number 48 on parade.

The large entry has entailed a lot of work, and a considerable amount of preparation for tests indoors, but we have nevertheless managed to get out on a number of occasions. Several of the new members of the Troop have passed their tenderfoot tests, and we hope to have everyone in uniform at an early date.

On November 11th, uniformed members of the Troop paraded at College Street with other troops, and took part in the Armistice Day Service on Angel Hill, afterwards attending a "Scouts Own" in the Cathedral.

On November 18th, on the occasion of the visit of Earl Jellicoe to inspect members of the British Legion, together with members of the O.T.C., we formed a guard of honour on Angel Hill.

We received a letter of thanks for our services from the headquarters of the East Anglian British Legion.

Apart from routine work on Tuesday afternoons we have had two paper-chases, an afternoon devoted to competitions, and a visit to "The Glen." The first paper-chase, held on October 23rd, was not quite as successful as it might have been, two of the hares being caught after a run of about twenty minutes. Mr. Morley arrived in his car at an opportune moment however, and we were enabled to carry on. King ii as a hare, and Grantham, as a hound, ran well. The second paper-chase on November 18th, was most satisfactory in every respect, and was greatly enjoyed. The hares kept well ahead, although rather hard pressed at times, and reached "home" about five minutes before the nearest hounds, a pack of six, who ran well.

On November 20th, we held a number of competitions which included Kim's game, races etc., for which points were

awarded. Prizes have been awarded to King ii, Sanders, Roberts, Tilbrook iii, and Morley.

On November 27th, through the kindness of Miss Ledward, we were able to pay a visit to "The Glen." Mr. Langham kindly took charge of the afternoon's proceedings, and a most enjoyable time was spent.

This term the shield has been won by the Woodpigeon Patrol.

The Sixth Form Library.

It is surprising that so little is known about a library that contains so many very old and interesting volumes as does the VIth Form Library at this School.

Chief among the volumes worthy of notice is "Merula" (B.V.) The fly leaves of this book are part of a Missal, written about 1250 A.D., with capitals in red and blue, and music on the old 4 line stave. The printed book was published in 1478.

A copy of Euclid, (A VI.) published in 1516, should interest those who are mathematically minded. The text is in Latin and the figures are drawn in the margins. Well, props are bad enough in English, but when it comes to proving them in Latin !

Next to Euclid is a fine old Natural History, with hand-coloured illustrations, which if not accurate are amusing.

A complete copy of Vergil's works (N IV.) should interest most of the Vth and VIth, as the wood-cut illustrations of the adventures of Aeneas are so naive. The binding of this volume is very fine.

Above this in N III. there are two well preserved old Psalters, printed 1562 and 1568 and therefore among the first to be published.

Special attention may be called to the "Addresses to Queen Elizabeth" (N VI.) written in 1564. These "addresses" are MSS., in a beautiful XVIth century hand, of addresses and poems read to Elizabeth on the occasion of her visit to Cambridge. From the introductory verses it seems

that the copy was compiled for the Duke of Norfolk. The book is bound in limp vellum, and the royal arms are imprinted upon each cover.

A fine set of books was given to the Library by Simonds Dewes, an O.B. and member of the Long Parliament, whose arms are stamped on the covers of the books. The books are all classics, Horace, Ovid, etc. The complete set is fortunately saved. Those interested in the Library should be grateful to the memory of Edward Leedes, headmaster, 1668—1707, who made a catalogue, and in whose time many of our older books were given.

It is hoped that soon some more modern books may be added. W.K.S.

With FORM LIBRARY NOTES.

The Librarian would be glad if any Old Boys who have had books out of the Sixth Form Library for a considerable time would return them, as several books are missing at present.

The following books have been presented this term:—

"Rhymes of Bury School," by R. B. Manley.

"St. Saviour's Hospital," by E. R. Burdon.

"The Artist Rifles Roll of Honour."

by their respective authors.

"Shakesperian Tragedy," by A. G. Bradley.

"Anthology of Modern Verse," by Sir A. Methuen.

"The Holy Roman Empire," by Viscount Bryce.

"Europe in the XVIth Century," by A. H. Johnson.

"The Ascendancy of France," by H. O. Wakeman.
were bought with a grant from the Governors.

Thanks are tendered to all the above donors.

Gifts of suitable books from Old Burians, or donations for the buying of new books, would be appreciated.

In conclusion, the Librarian tenders his thanks to his assistant for the many valuable services he has rendered, especially with regard to the mending of books, in many cases, much needed. J.R.M.W.

Old Boys' Notes.

At the General Meeting of the Old Burians' Association which preceded the Dinner at the Angel in July, a motion was put forward inviting Old Burians, and those interested in the School and the Association, to contribute towards the cost of printing the Addition (1900—1925) to the School List. The present List covers the ground between 1550 and 1900, and the Association wishes to bring this up to date. For the purpose of doing this, a committee was elected, with the Headmaster as Chairman. The other members of the committee elected were:—Messrs. R. B. Manley, C. W. Turner, A. B. Ord, G. J. Hinnell, C. J. Hinnell, H. A. Conlan, A. W. Crack, and G. V. Richdale (Hon. Secretary). The Headmaster undertook to act as Hon. Treasurer. For the purpose of obtaining the necessary information letters have been printed and sent to all Old Burians who were at the School during the years 1900—1925. It is hoped that all O.B.'s will reply to these letters as soon after receiving them as possible, as this will greatly facilitate the work of the Committee. For the convenience of their reply addressed envelopes have been enclosed.

The Hon. Secretary wishes to take this opportunity of thanking all those who have already written to him, supplying those details of their personal life since leaving School, which must of necessity be known, before a List of this kind can be compiled.

The annual London Dinner of the Old Burians' Association will be held at the New Criterion, Piccadilly Circus, W.1., on Saturday, 26th January 1929, at 7.30 p.m. The price of the Dinner will be 8/6 per head. All O.B.'s are cordially invited to attend. Letters have been sent to all members of the O.B.A., but should there be anyone who has not received one of these by any chance, the Hon. Secretaries would be very grateful if he would inform them of the fact. Letters should be sent to the Assist. Hon. Secretary for London, G. V. Richdale, at Courteroy, Benhill Wood Road, Sutton, Surrey.

The Old Boys' Cricket Match and Dinner was held on Saturday, July 28th. The Old Boys' team was much stronger than that of the previous year and was captained by the Rev. A. D. Taylor.

The Dinner was held at the "Angel" Hotel, and it was gratifying to observe that the numbers present were increasing

steadily year by year and it is hoped the improvement will continue. The guests were the Headmaster, Mr. Manley, and the Head Boy, P. J. Bacon. The health of the School was proposed by Mr. A. C. Tearle. He remarked upon the word "School" and all that it meant to an Old Boy. He also gave an interesting comparison of past and present school life, as in the past the chief subjects of the School's curriculum were Classics, and that in those days the interesting subject of Science in all its branches were practically unknown. The toast was then drunk with enthusiasm.

In reply Col. Wadmores gave an interesting account of the School's recent activities and success, and remarked that the affection and enthusiasm of the O.E.'s for their School was one of its greatest assets.

At the Old Boy's Meeting held before the dinner, Mr. A. B. Ord was re-elected President, G. J. Hinnell, whose unfortunate absence through illness was very much regretted by those present, was re-elected Hon. Sec., and Treasurer, W. A. Crack as Assist. Hon Sec., and G. V. Richdale was elected Assist. Hon. Sec. for the London Area.

G. V. Richdale proposed the subject of the School List which had been discontinued as from 1900 and which he hoped, with the combined assistance of all Old Boys would be brought up to date and published in due course. It was proposed that a committee be formed with Col. Wadmores as Chairman, and G. V. Richdale as Secretary, in order that the scheme adopted at the meeting should be put into working order. The Committee would welcome any assistance that any Old Boy is able to give. Communications should be addressed to the Headmaster, or to G. V. Richdale, Courtleroy, Benhill Wood Road, Sutton, Surrey.

CRICKET MATCH.

BURY SCHOOL v. OLD BOYS.

The last match of the season was celebrated with a full days' play. The Old Boys batted first and compiled the respectable total of 84, Randell and the brothers Fulcher obtaining double figures. The first wicket put on 22 runs, making the best stand. Of the bowlers, the School Captain, with four for 4, was the most successful.

The School's 1st innings produced 77 runs, Fulcher 11, and Pellew 16, obtaining the most. G. Fulcher got four wickets for 16 runs.

There being opportunity for a second innings, the O.E.'s went in again and their captain, the Rev. Taylor declared at 76 for four wickets, thus giving the boys a sporting chance to win with 84 to get in about an hour. The boys rose to the occasion and pulled off a victory just ahead of time. Lee 16, Marshall 15, Fulcher 18 getting the majority of the runs though every batsman contributed a quota. The Old Boys tried 6 bowlers of whom Wright, with three wickets for 18, was the most successful. The Headmaster kindly entertained the teams to lunch and tea, and with the win for the School a perfect cricket day ended in a most satisfactory manner.

Congratulations to John Ashton who has been chosen to play for England in the International Match v. Holland on December 8th.

We are pleased to hear that R. G. Evans, besides taking a great part in the games, has become a House Master at Wellington.

All his many friends will be glad to hear that F. R. Stokes, who is in the Rhodesian Police, has passed many tests and has gone for an 800 mile ride through the Zambesi escanpment.

Burians will be interested to hear that Sidney King is sheep farming in New Zealand. His address is, c/o T. M. Davis, Esq., Waiata, Private Bay, Clevedon, Nr. Auckland, New Zealand. He is 50 miles from a town and letters are very much appreciated in the back blocks.

Burnside has obtained a post in the General Life Assurance Corporation and is in their Aldwych Office.

Kirby has accepted an appointment with Joseph Met, the Tea Merchant Co., and hopes to go to Ceylon in a few years time.

J. Johnson has gone into Barclays Bank and is stationed at Ipswich, and O. T. Lloyd into the Westminster, while Keith Gent has been transferred to Stowmarket, and rejoices in week-ends at home.

We are pleased to hear that E. R. Burdon, amongst his manifold writings of antiquarian and local interest, has recently brought out a pamphlet on Northgate Hospital.

H. K. F. Marshall who passed his Air Force Apprenticeship Exam. with such éclat last term writes to say he is doing well. Besides the usual training he has taken up aero-engine fitting as his trade. A/A H. K. F. Marshall, 562,826 D Squadron, Graves Barracks, Halton Camp, Bucks., will find him.

David Alston, who has been visiting the Land of Cakes, Eric Whiting, F. H. Jones, and F. E. Turner, who are stationed at the Hub of the Universe, and J. N. Morley, who spends his days coal mining and his nights studying, write to say they are enjoying their work, and more particularly their leisure.

School Notes.

<i>Secretaries—</i>			
	B. G. King	J. R. M. Wright	W. C. K. Stubbing

We congratulate R. H. Land, and C. J. Tilbrook on being appointed School Prefects, and G. H. Burdon, G. H. F. Smith, J. M. R. Wright, D. A. S. Grainger, and W. C. K. Stubbing, on attaining to Prefect Rank.

The Games' Results and Points for the Football Term House Shield are:—

	1st XI.	2nd XI.	Points.	
			L.	T. Y.
Lancaster v. Tudor—				
T.	7—2	T. 14—0	—	18 —
Tudor v. York—				
T.	9—1	T. 28—0	—	18 —
York v. Lancaster—				
L.	10—0	Y. 2—1	12	— 6

The Lancaster House Captain, B. F. Lee, has awarded House Colours to:—Smith i., Tilbrook i., King i., Lomax, Pike, Allen, King ii., Champness.

The Tudor House continues to maintain its supremacy on the playing fields and has again succeeded in obtaining the maximum points. In the four House matches played by them the Tudors scored 53 goals, and their opponents retaliated with 8. Is this a House Record?

The Tudor House Captain, A. E. Bird, to whom we offer congratulations on his victories, has awarded House Colours to the whole of his team—Charles, Fulcher, Hall, Booth i., Roberts, Pellew, Shoberl, French, Husk, and Urwin.

The Yorkist House Captain, H. R. Land, has awarded his House Colours to:—Stubbing, Higgins, Sandford i, Fellgett, Sanders, Tilbrook ii, Tilbrook iii, and Fuller.

We congratulate H. K. Marshall, J. R. M. Wright, J. Johnson, D. A. S. Grainger, B. F. Lee, E. A. Kelsey, W. C. K. Stubbing, and G. R. Burdon, on passing the School Certificate Exam., and particularly felicitate Marshall and Wright who obtained honours. Wright also gained a distinction in English, and the first four obtain exemption from Matric.

The Football Captain, D. Fulcher has awarded colours to: B. F. Lee, C. W. Charles, A. E. Bird, G. H. F. Smith, and H. R. Land.

Half-colours have been won by:—Booth, Hall, King, Pellew, Husk.

Second XI. colours have been distributed to Pike, French, Shoberl, Allen, Tilbrook ii, and King ii by C. J. Tilbrook 2nd, XI. Captain, and 2nd XI. half-colours to Roberts and Sanders.

We have greatly appreciated Mr. Kennedy's impromptu concerts this term, but we regret to add that owing to the vociferous roars of fifty people lustily shouting "One grasshopper jumped over, right over another grasshopper's back," the ceiling outside the Big School has fallen down.

The 2nd XI. Royalist v. Foreigners' match for the Cup presented by Mr. Grudgings resulted in a win for the Foreigners by 4 goals to 3, after a very even and well contested game. The Tudors are thus the first winners of this handsome trophy.

The Fiction Library continues as popular as ever, and a queue is to be seen invading the sacred precincts of Study Row on half holidays. Several new additions have been made to the Library, but if the books were treated more carefully, even more Edgar Wallace thrillers could be bought and so the Lower dormitory might be able to indulge a modest taste for nightmares as well as their Seniors. We are indebted to M. S. Kirby for the gift of 10 books to the Fiction Library.

The School attended the proceedings on October 9th, held in remembrance of the drawing up at Bury of Magna Carta. The Senior boys were present at the Memorial Service in the Cathedral and the whole School attended the out-of-doors Celebrations.

The O.T.C., the Scouts, and the rest of the School, paraded at the War Memorial on the anniversary of Armistice Day, and after the service there, went in procession to the Service at St. Mary's.

The following hockey fixtures have been arranged:—Norwich, February 2nd (A); East Anglian, February 7th (A), March 2nd (H); Clare, February 9th (H), February 23rd (A); Ely, February 14th (A), March 14th (H); Haverhill, February 16th (H), March 9th (A); Old Boys, March 23rd.

On the occasion of the visit of Admiral Jellicoe to Bury, November 18th, to inspect the Legion of Honour. The Corps and the Scouts, formed a guard of honour at the War Memorial. The following letters of appreciation have been received by the Headmaster:—

Walton House, Ipswich,
19th November, 1928.

Dear Sir,

I am desired by the East Anglia Area British Legion Council, to express to you their appreciation of the attendance of the O.T.C., on the occasion of the Legion Rally to greet Earl Jellicoe, the President of the Legion, at Bury St. Edmund's yesterday, and to ask you to express my Council's thanks to the officer and members who paraded, for their valuable assistance in making the ceremony the great success it was.

Yours faithfully,
H. Hussey, (Organising Secretary.)

Dear Sir,

The East Anglia Area British Legion Council much appreciated the attendance of your Scouts on the occasion of Earl Jellicoe's visit, and would be glad if you would convey to the troop their best thanks for their help in making the ceremony the success it was.

The School has been graced during the term by the presence of numerous Old Boys. We have been glad to see up:—Messrs. Kirby, J. Johnson, M. Lacey, Ely, G. Fulcher, Thurlow, Shearing, Crack, Gent, S. Yelloly, D. E. Turner, F. H. Jones, G. V. Richdale, E. Wright, Lloyd, Allen, Randell, E. W. Wright, and W. K. Kefford, and wish to thank those who have given valued assistance with the games.

D. A. S. Grainger, as top shot, has carried off Sir Courtenay Warner's Cup. His score was 108 out of 125 points. We congratulate him on his prowess.

Members of the Upper School were privileged to attend, and thoroughly enjoyed, a performance of "Iolanthe," by the Bury Amateur and Dramatic Society, on October 10th.

This term we welcome Mr. Morley as Classical Master. His keenness and popularity are clearly indicated by the facts that his Form now call each other by Latin names and are ready at any time to demonstrate their skill at football or fives on the next higher Form.

To Mr. Elliott, as English Master and Sportsman, we also give greeting. Those who play football as well as those who study Shakespeare or spelling thoroughly appreciate his worth.
